

Sourcing and Procurement BPO

We work side by side to manage your procurement requirements.

Global Trade Management

Through our wide partner network, we can easily locate and quote the products or services required according to your needs.

Supplier Negotiation & Contracting

We negotiate your rates and requirements with suppliers and draft a contract and payment schedule.

Permits and Regulations Compliance Support

We are always in full compliance with the customs requirements for the shipments arriving at the destination.

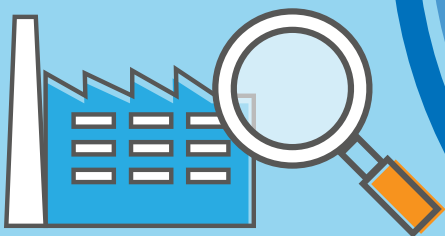

Door to Door Logistics Execution

If goods are sourced and require transportation, we adapt our international logistics to your needs by air, sea or land until final delivery.

Supplier Selection

Our team of highly experienced sourcing professionals will be able to select the supplier able to satisfy your sourcing needs around the globe.

Supplier Development

We make sure that the suppliers have the required infrastructure to match your operations through audits and inspections.

A single point of contact throughout the entire supply management, from sourcing to execution.

Our purpose is to make the Logistics & Trading process simple, efficient and stress free for both buyers and sellers in Domestic and International markets.
