> CAREFULLY HARVESTED IN ESPARTILLAR - ARGENTINA <

DISCOVER A NEW TRUFFLE WORLD

TRUFFLES WITH PASSION

Since 2012

We are dedicated to the production of one of the finest edible mushroom: Black Truffle (*Tuber melanosporum*)

In our truffiere, 50 hectares with more than 20.000 inoculated trees (*Quercus robur* & *Quercus ilex*),

each winter we responsibly harvest the "black diamond", since the discovery of our first truffle in 2016.

Now we look forward to building long term relationships world-wide to deliver our treasures, into trustworthy hands.

Trufas
DEL NUEVO MUNDO

OUR TRUFFIÈRE

LOCATED IN
ESPARTILLAR TOWN

GUARANTEED FRESHNESS

Our location let us reach the main international airport of Argentina in the same day in which truffles are harvested. Making sure that truffles can reach the main cities of the world with intense aroma.

BA

BUENOS AIRES AIRPORT

we are 500 km away from Ezeiza international Airport

OUR TRUFFLES

CERTIFIED TUBER MELANOSPORUM

Analyzed with PCR technique by INTECH.

Scientific analysis of our truffle with a public institution (INTECH), with PCR technique in order to certify the species of the truffles that we harvest
