ABOUT US

COLOMBIAN EXPORTS FRUITS, is a company that commercialize and export tropical fruits to the world. With a qualified team, committed farmers and suppliers, that provide efficient processes, we guarantee on our products; a safe post-harvest service and all the requirements for export to international markets. CEF works guide by principles of fair trade, environmental commitment, social responsibility and transparency to develop improvements for the Colombian agriculture.

ABOUT OUR FARMERS

Our commitment is to boost the development of the Colombian agriculture working next to the farmers from Cundinamarca department. We turn them in one of our mainly axes for all our export processes. As a policy, Colombian Export Fruits give technical support to the farmers in order to establish Good Agricultural Practices (GAP). Also to implement environmental friendly supplies, to have technical efficiency in the harvest and improvements in their social conditions seeking to establish fair payments for their activities. We believe that fulfilling these purposes, we ensure the quality of our fruits to be competitive for the international markets.

TESTIMONIES

ARTURO URREGO

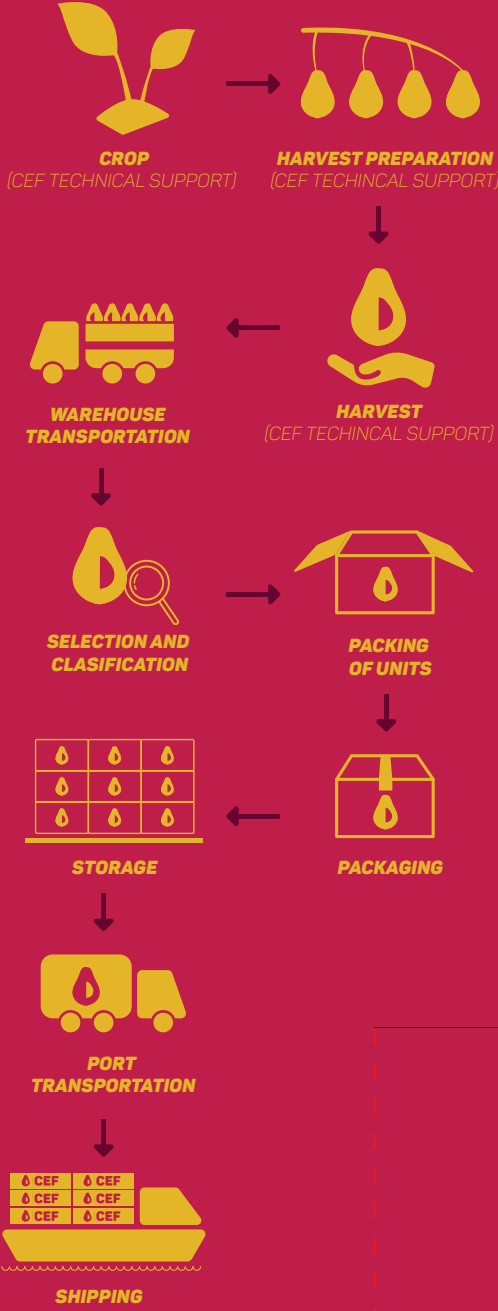

"I work in the passion fruit export project and I like it because we can cultivate with better agricultural practices to offer a healthy fruit"

ALFONSO GUTIERREZ

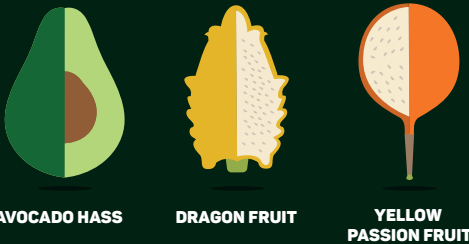

"We are part of the HASS avocado export project because it is a crop with benefits applying BPA and which has an export cycle that grows. It will become the green gold of our country and will improve the conditions of Colombian farmers"
