"We are a team of international trade experts and customer-oriented professionals, dedicated to delivering solutions tailored to your needs."

- Prevention & Recovery of Overruns
- Freight Forwarding
- Consulting & Advisory
- Cargo Handling & Inspection
- Legal Support

# Prevention and Recovery Overruns

We help prevent and recover overruns by identifying and addressing potential risks, ensuring cost efficiency throughout the logistics process.

# Prevention and Recovery of Overruns

## Claims Management

Expert handling of claims related to detention, demurrage, damages, and cargo shortages. We ensure swift resolution to minimize financial impact and operational disruptions.

## Pre-Shipment Inspection

Thorough inspection of empty containers before loading to confirm they meet export standards, ensuring safe and compliant transportation.

## Seal Integrity Inspection

Verification of the condition and integrity of container seals at the point of origin to ensure compliance with security protocols and reduce the risk of tampering or loss.

# Freight Forwarding

## Multimodal Transportation and Logistics

We manage the seamless movement of cargo through multiple transportation modes, ensuring cost-efficiency and on-time delivery. Our expert coordination of each stage helps reduce transit times and operational costs while maintaining the highest standards of service.

## Warehousing Solutions

We offer secure, technology-driven warehousing solutions tailored to your cargo's specific needs. Our state-of-the-art facilities are equipped with advanced inventory management systems to ensure accurate control and real-time visibility.

# Freight Forwarding

## Order Fulfillment Services

We handle the entire order fulfillment process, from picking and packing to shipping, with speed and precision. Every order is delivered according to the agreed specifications and deadlines, ensuring complete customer satisfaction.

## Distribution Services

We plan and execute comprehensive distribution strategies at the local, national, and international levels. Our distribution network ensures that your products reach their final destination securely, efficiently, and within the expected time frame.

# Consulting & Advisory Services

We leverage our deep expertise in international trade and logistics to provide tailored solutions. Our services help you optimize your supply chain, reduce costs, and enhance your competitiveness in global markets.

# Cargo Handling and Inspection

## Comprehensive Container Inspection

We conduct detailed inspections that include transportation, stowage, lashing, seal integrity, and labeling, ensuring compliance with international standards and maintaining cargo security.

## Supervision of Loading and Unloading

We oversee cargo loading and unloading to ensure proper handling, minimize delays, and optimize efficiency throughout the process.

## Damage Assessment

Our experts evaluate the condition of goods and packaging, identifying and documenting any potential damages to ensure accountability and proper claims management.

# Legal Support

## Mediation and Legal Proceedings

We provide expert legal assistance in mediations and proceedings related to international trade and logistics, safeguarding your interests and ensuring compliance with global standards.

## Dispute Resolution

Our team facilitates the resolution of disputes between shippers, carriers, and terminals, minimizing disruptions and ensuring smooth logistics operations.

## Legal Documentation

We prepare and issue legal documents, including notices and claims, to prevent conflicts and protect your business from potential risks in the supply chain.
