ABOUT TRANSCARGO

Founded in 2016, TransCargo provides customers with multimodal, one-stop transportation solutions. Our founders roots bring over 30 years of logistics experience.

We earn our customer's trust through innovative technology and operational efficiency to customize logistics solutions. We focus on customer relations and hiring the best, most-driven, and highly motivated employees. Together this formula has carried TransCargo to where we are today.

OUR CORE VALUES

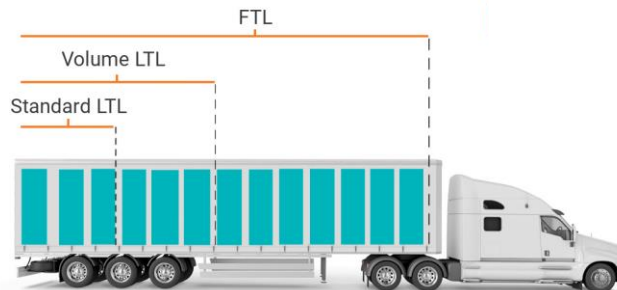

EXCELLENCE

INTEGRITY

SAFETY

RESPECT

TRANSPORTATION SERVICES

At [TransCargo Solutions](http://www.transcargo.io), we connect customers through our assets, dedicated owner operators, and vast logistics network.

[Ocean Container Drayage / Intermodal:](#)

Through our assets and longstanding relationships with owner operators, we bring you the best rates, chassis availability, and capacity at every major US Port.

[Truckload: \(Solo & Expedited Team Drivers\)](#)

Our network of over 75,000 contract carriers and private fleets gives you real-time access to lane rates and capacity.

[LTL:](#)

Let us help determine the best LTL approach for your business, combining our expertise with one of the largest LTL networks in North America.

[Specialized:](#)

When your transportation needs require a full range of specialized services, TCS can offer a custom solution.

WAREHOUSING SERVICES

Our warehousing services include shared, dedicated and custom operations, cross-docking, and distribution.

- **Shared Operations:** Sharing space makes warehousing service more affordable for companies that need less or more flexible space. Get what you need, when you need it, without paying for more.
- **Cross-Docking Services:** Cross-docking freight allows us to sort incoming freight to different destinations, or combine product to one final destination. This practice gets your product to market faster, and reduces costs by using less warehouse space and less labor.
- **Specialized Transload Services:**
 - Unload/Load open top and flat rack containers
 - Handle oversized heavy machinery
 - Heavy lift cranes up to 200-ton capacity

EDI INTEGRATION

Our TMS is a fully integrated suite of applications that allows for the timely and seamless exchange of important documents and information electronically with our customers.

From bills of lading and load tenders to shipment status and invoicing, each document type is customized to fit the requirements of each trading partner.

We are not restricted to certain Value Added Networks or communications protocols and every transaction is encrypted to ensure that each communication is secure.

TRANSACTION SETS INCLUDE

- 204 – Load Tender
- 210 – Electronic Invoicing
- 211 – Bill of Lading
- 214 – Shipment Status
- 990 – Load Response
- 997 – Acknowledgment
