Private Label / Terceirização

A terceirização proporciona agilidade, crescimento e segurança na fabricação de produtos cosméticos. Com a parceria de empresa com know-how no assunto o cliente foca seus esforços para a administração e venda de sua marca/produto, com a produção assegurada por uma empresa especialista.

Com a terceirização de seus produtos, pode contar com os seguintes benefícios:

- Estrutura fabril necessária
- Experiência de negócio
- Empresa especializada
- Maquinário
- Equipe técnica
- Adequações legais
- Certificações

Royal Jelly, Honey & Propolis Soap

ROYAL JELLY

Royal Jelly is a natural product produced by young bees. It is rich in amino acids, lipids, enzymes, vitamins and proteins.

It contains specific nutrients that promote skin renewal, such as flavonoids, nucleic acids, decanoic acid and hormones.

The antioxidant compounds found in royal jelly can also work to eliminate the free radicals that normally cause premature aging of the cells.

Antioxidants can eliminate wrinkles and maintain a healthy shine to your skin.

ROYAL JELLY SOAP EXTREMELY MOISTURIZING

The Royal Jelly soap contains a number of vitamins, proteins and minerals that nourish skin to give it a youthful glow. It also has antibacterial properties.

This soap is extremely mild for your body. It's formulated with fresh royal jelly and the finest natural ingredients. This gentle soap gives the skin a creamy lather, rich in moisture and a sublime scent.

MAIN BENEFITS

- Tones and moisturizes dry and aged skin.
- Helps clearing skin patches.
- Restores skin's natural pH balance.

UNIQUE BLEND

Brazilian Royal Jelly is rich in amino acids, lipids, vitamins and proteins. Combining this with the regenerative powers of propolis and the elasticity of honey we've created a unique blend of complete skincare. Restoring skin to natural firmness.

INGREDIENTS

Elaeis Guineensis Kernel Oil, Royal Jelly Extract, Propolis Extract, Honey Extract, Stearic Acid, Cocamidopropyl Betaine, Cocamide Dea, Glycerin, Propylene Glycol, Sucrose, Aqua, Alcohol, Citric Acid, BHT, Sodium Hydroxide, Sodium Chloride, Parfum.
