1. BRIEF

We are Venezuela Trade Net, an international trade company that provide integrated technical assistance, accompanying your needs, before, during and after the import and export operations from the development of a plan to the settlement of process.

We are known as a firm that understands the difficulties in Venezuela which crosses the companies to achieve an import or export successfully, providing cost effective solutions at a reasonable price for consulting and trading, through a professional service, reliable and high quality.

Our goal is to become a strategic partner for our clients in all matters related to international trade, becoming the

department of these issues.

Our team brings knowledge, experience and innovation to the international trade transactions with foreign countries in the shortest possible time

2. OUR SERVICES

International trade consultant company based in Caracas, making emphasis in the Venezuelan business laws & regulations, trade regime, trade agreements, regional integration, customs and WTO Law.

As an independent consultant, analyzes in depth legislation and practices concerning regulation of trade for goods and services, also the existing Venezuelan customs import-export control legislation and documentation requirements for international transactions.

Monitor current, future, and potential regime affecting classification, trade programs or duty impact. Manages Venezuelan customs entry filing process, analyzes and drives solutions to gain operating efficiencies. Areas include:

evaluation, classification, country of origin, qualification for special trade programs, storage solutions for customs-bonded and distribution. Identify cost-saving opportunities through tariff engineering, trade programs and government regulations.

Using Venezuela Trade Net guide you through the market compliance minefield. Represent foreign firms at domestic market, international tenders on government procurement, fairs, expos, and others such events. It is more cost-effective to have us represent you than to send your own agent here. An agent may know little about the Venezuelan market, and is not likely to be well informed about the maze of regulations that must be navigated to doing business.

3. TRADER

Our company specializes in trading of any goods, whether from bulk raw material to finished products, thanks to the knowledge and expertise that dominate our professionals and partnerships with distributors, who manage to position products permanently.

We guarantee our customers quick and safe management of all steps involved in the process of trading, because we apply the new trends in trade, coinciding in the search for better solutions to recurring changes that require these transactions.

4. CUSTOMS LOGISTICS SERVICES

Our company knows the processes carried out at customs for clearance of goods, complying with the conditions for import, export and currency exchange on Venezuela, because we have well trained experts who provide personalized and priority treatment on arrival, on departure of the shipments in customs.

We have one of the best customs agency services that facilitates their customs processes, manage documents efficiently and operations required for the nationalization of goods.

5. OUR PEOPLE

Our team represents professionalism and expertise in areas of international trade, banking, law and economics, always concerned about its customers to improve and innovate in their business transactions with foreign countries. Our specialists have a positive attitude, proactive and responsible, ideal to encourage companies to complete their import and export, opening to new knowledge and skills

to address in a timely manner the many challenges facing the international trade.

We are proud of the initiatives that companies consult us to make an international business transaction, so the satisfaction is the highest reward from our customers and our satisfaction is to meet your expectations.
