

What's New for Krominox in 2022

Panasonic

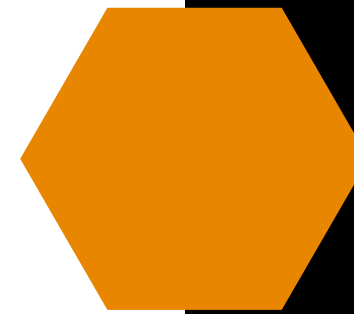

KROMINOX®

ABOUT US

A genuinely Brazilian group, it has been since 1996 showing a path of commitment to quality. Currently consolidated as a supplier of tubes, plates, and stainless-steel connections, it has expanded its supply to the country's most representative industries, either by supplying replacement materials or by participating in special projects.

Krominox Group is certified by SGS, as it meets the requirements of the ISO 9001:2015 standard. Furthermore, it provides technical and commercial advice, presenting solutions adjusted to projects and needs. It also operates in the after-sales concept, providing technical assistance throughout the country.

MISSION

To collaborate expressively with the country's development, supplying quality products for full satisfaction of customers, suppliers, and employees, meeting their needs with quality and excellence.

VISION

To stand out and be a reference in the field.

VALUES

Innovation, customer satisfaction, focus on results, and teamwork.

Probabilidade de
Inadimplência
0,59%

Risco de
Crédito
Muito Baixo

Venda à prazo

Interpretação

A pontuação enquadra-se na faixa de 751 a 800 e representa risco muito baixo de crédito. Para empresas com este perfil de risco, é prática de mercado conceder crédito sem necessidades de garantias adicionais. Em média, empresas com esta categoria de risco costumam honrar os compromissos assumidos em 99,42%.

Legenda

- Risco mínimo a baixo de crédito
- Risco baixo a médio de crédito
- Risco médio a relevante de crédito
- Iminente risco de crédito - Default

LIMITE DE CRÉDITO PJ

DATA: 10/06/2022 HORA: 17:23:33

Sugestão de limite

R\$ 29.655.192

METODOLOGIA

O Limite de Crédito PJ foi calculado com base em referenciais de negócios* ponderado pela classificação de risco de crédito da empresa medida pela tecnologia do RiskScoring.

(*) referenciais de negócios = faturamento presumido, média e valores da última compra, maior fatura ou maior acúmulo.
