NATURAL PRODUCTS
FOR
A HEALTHY LIFE

PRODUCTION

Across the globe, the trend towards discerning customers who demand top-quality food is growing. For Herbs,spices,seeds, dried vegetables and fruit, it is essential to detect and eliminate contaminants.

“Thanks to a wide range of different detection technologies, our systems can efficiently and reliably live up to this task. ”

PROCESSING

Hand Picking Conveyor

A conveyor system is used in many industries it helps to remove impurities by hand picking on the conveyor belt.

Also to move products from one location to another.

PRODUCTION LINE

Gravity Separator & De-stoner

To removes light weight seeds & stones are effectively removed which are mixed with the raw material to achieve desire output.

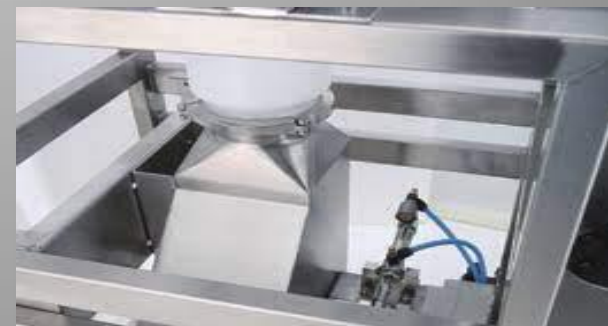

Metal Detector Gravity

Feed Metal Detector systems are to designed inspect any free flowing bulk powder or granular materials such as spices, oil seeds & other herbal powders.

T-Cut / Fine- Cut/ Coarse Cut Machine

The Food Grinder/ Pulverizer is to reduce the size of the spices, grains, herbs etc. From 4 to 5 mm to 40 mm mesh powder.

Export@wadiherbs.com
