

## Performance Cruiser 48"

The Design is definitely joining the ranks of one of the most popular cruising ranges on the market. The multihull shares the slim hull lines and generous rocker of her siblings, giving her the speed when light but good payload when crossing oceans fully-laden, capable of running down the trades at an effortless 250 miles a day, or more.

LOA	14.95 Metres
BOA	8.00 Metres
DRAFT	0.500 Metres
