9. Constant Technology Surveillance
10. Permanent Monitoring of Customer Satisfaction

Success stories

We implemented a solution that allows to manage raw material purchase orders, make internal transfers and control the inventory of each of the restaurant locations, integrating a SAP system and a 3rd party point-of-sale system.

“**appinit** has helped us to innovate the inventory processes with the integration of systems around our SAP ERP. This allowed us to have a structured follow-up of the entire inventory process.”

IMC - CTO

DiBanka

With DiBanka we:

1. Develop an entire Solution ecosystem.
