

**Liquid  
Collagen+**

# Liquid Collagen+

Collagen drink with 10 grams of hydrolysed collagen (collagen peptides), vitamins A, C, zinc and selenium, which work synergistically to create one of the most advanced and effective products on the market, being highly indicated by doctors and nutritionists.

Packing: boxes containing 30 plastic bottles of 60 ml, to be consumed once a day.

## Raw material

Collagen is a protein produced naturally by our body. However, as we age, its production begins to decrease. At age 50, the body produces only 35% of the collagen needed. That's why a collagen supplement is beneficial to the skin.

The source of Qualinova's Liquid Collagen + is bovine skin, the same source as gelatine. The difference is that the process of production of collagen counts on thermal, chemical and enzymatic hydrolysis for effective absorption.

## Liquid Collagen X Collagen powder capsules

A daily dose of Qualinova Liquid Collagen is equivalent to 20 capsules. The hydrolysed collagen in its liquid form has a higher concentration of protein and rapidly absorbed, presenting absorption rate up to 300% higher than the collagen in a capsule.

Liquid Collagen is a practical consumption format, being easy to keep, transport, and drink. The convenient package and drink reduces the likelihood of consumers withdrawing its use.

## Benefits

### Skin

- Increases firmness and elasticity
- Prevents wrinkles, stretch marks and cellulite

### Nails

- Stronger and less brittle

### Hair

- Promotes healthier, stronger and less brittle hair

### Joints

- Stronger
- Pain prevention, arthritis

### Muscles

- Prevention of mass loss

### Face

- Reduces wrinkles

\* The time for perceiving the benefits is variable, as the body distributes the collagen to where it is most needed. On average, after 30 days of continuous use, the results begin to be noticed.

## Flavours

- Pineapple
- Red Fruits
- Lemon
- Passionfruit
- Strawberry
- Fruit Salad with beta-carotene
- Mixed (several flavours in the same box)

## Ingredients and Nutritional values

Water, 10 grams of hydrolysed collagen, acidulates citric acid and fumaric acid, antioxidant ascorbic acid (vitamin C), natural flavours, preservative sodium benzoate and potassium sorbate, sucralose sweetener, zinc bisglycinate (zinc), retinyl acetate (vitamin A) and sodium selenite (selenium).

### GLUTEN-FREE

Not fattening, not having sugar and providing only 36 calories.

Fat free, sugar free, with only 150KJ (36 calories)

Store in a cool, dry place, free of moisture and sunlight. Consume after opening. Best served cold.
