## DERMACLIN MOISTURIZING BODY EMULSION

- ▶ With soothing and moisturizing effects, keeping your skin soft and elastic.
- ▶ For body use, specially after bathing or as and after-sun.
- ▶ Refreshes & tonifies your skin.
- ▶ Moisturizing, protective and revitalizing effects.
- ▶ Its light and nongreasy structure allows a easy cutaneous absorption.).

### RECOMMENDATIONS:

- After a bath or daily shower to counteract the harmful effects of detergents. For the best results, body emulsion should be used after bathing. During a hot bath or shower, the skin softens and the pores open. Once the skin can has been patted dry but is still soft and warm, a body emulsion can easily sink in and begin to do its work. It is much more difficult for the moisture to enter the skin if the skin is cold and rigid.
- Body emulsion can be used to replace moisture in the skin after shaving. Shaving not only removes hair from the skin, but can also draw out natural oil and moisture. Using a moisturizer right after shaving, when the skin is dry but still warm, will help to quickly replace any lost moisture.
- People who need to hydrate their skin, since they are frequently exposed to sun, air, cold and heat. Maintaining moisture in the skin is one of the best ways to prevent damage to the skin and keep skin looking young. Because skin can become especially dry in cold weather, body emulsion can be especially useful in the winter. In warm months, it can be used to replace moisture in skin that has been exposed to the sun. In fact, there are some body lotions that are formulated with a sun protection factor. These both moisturize the skin and reduce the risk of sunburn.
- Long-term patients staying in bed, the patient's skin becomes very rough, red, or painful.

Note: although our body emulsion is indicated for use on the entire body, it is not advisable to use it on the face. The skin on the face is quite delicate and is more prone to irritation than skin on any other parts of the body. It is also more prone to producing excess oil than other parts of the body. We recommend the use of Nailine Aloe Vera Mosturizing Facial Cream for a proper facial care.

### INSTRUCTIONS

Apply all over your body (from the neck down), after showering, while your skin is still slightly damp. Special attention may be given to your elbows, knees and feet.

*Formula: aqua, decyl oleate, isopropyl, myristate, glyceryl stearate s.e., cetearyl alcohol, ceteareth-30, sodium benzoate, parfum, 2-bromo, 2-nitropropano, 1,3-diol, hexyl cinnamal, butylphenyl methylpropional, benzyl salicylate, limonene, citronellol, linalool, citral, eugenol, alpha isomethylionone.*

## NAILINE ESSENTIAL OILS: TEA TREE

Bottle 15ml.  
Display 12 pcs.

- ▶ Natural Cosmetics for normal, dry, damaged or aged skin.
- ▶ 100% pure, without colorants, perfumes or preservatives.
- ▶ Tea tree oil that contains Terpinen-4-ol in abundance serves as an active therapeutic agent in the treatment of several microbicidal disorders.

WITH DROPPER

Thanks to its antibiotic, anti-fungal, antiseptic, expectorant and antiviral properties, tea tree oil has a surprising number of topical uses.

### Tea Tree Oil Can Benefit The Following Skin Conditions

- Ring worm and athlete's foot
- Softens corns
- Cuts and scrapes
- Itching of insect bites and chicken pox
- Warts
- Acne
- Dandruff

### Benefits of Using Tea Tree Oil on Hair

This oil is extremely effective for hair and scalp treatment. Be it dandruff, split ends, fungal infection, itchy and other scalp concerns, the Tea Tree Oil will give your scalp and hair a healthy treat.

The oil from tea tree is well known for its effective treatment of viral and bacterial infections. These attributes leave your hair protected against many forms of scalp irritants.

This medicinal oil nourishes and moisturizes both scalp and hair.

**Precautions:** do not use during pregnancy. Do not ingest. Do not use undiluted. It can cause irritation in some people.

## NAILINE ESSENTIAL OILS: ROSEHIP

Bottle with dropper 15ml.

Display 12 pcs.

- ▶ Natural Cosmetics for normal, dry, damaged or aged skin.
- Rosehip Oil with essential fatty acids (omega 6, omega 3, linoleic), antioxidants and vitamins (retinol -vit. A-, vit. C & E).
- ▶ Chilean Origin. Certified organic farming. Cold pressed.
- ▶ Without pesticides, parabens, chemical products or sulfates.

WITH DROPPER

Oil obtained by first cold pressing of *Rosa canina*'s seeds. Harvested from the seeds of rose bushes grown in Chile, and full of vitamins, antioxidants and essential fatty acids that are known to correct dark spots and hydrate dry, itchy skin, all while reducing scars and fine lines.

Double ecological certification (European regulation 834/2007 and basic norm of bio.inspecta).

The main bioactive component of rosehip seed oil is all-trans retinoic acid, which is a natural precursor to vitamin A. The high amount of tretinoin is responsible for making rosehip one of the best oils for restoring depleted and scarred tissue.

Additionally, vitamin C helps brighten the complexion, while GLA protects against environmental stressors and, subsequently, premature aging.

## NAILINE BIO·LIFT REJUVENATING GEL

Airless bottle 20ml.

- ▶ IMMEDIATE RESULTS
- ▶ Reduce and prevent training of wrinkles and crow's feet
- ▶ Hydrates and firms the skin of face, neck and neckline
- ▶ For all skin types

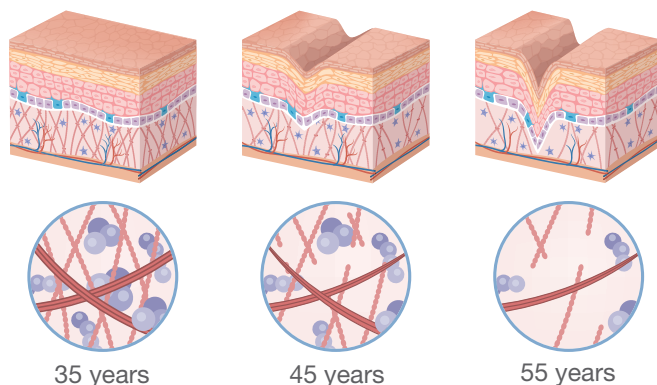

Rejuvenating treatment gel, which provides immediate results, reducing wrinkles and fine lines and preventing the appearance of new wrinkles.

**Spilanthol:** muscle relaxant to stimulate, reorganize and strengthen the collagen network of the skin. The muscular micro-contractions that cause the appearance of wrinkles and expression lines become slower, by reducing muscle contractions, facial expression is relaxed, reducing wrinkles and existing expression lines and preventing the appearance of new ones. Stimulates, reorganizes and reinforces the collagen network of the skin. The effects of *Acmella Oleracea* on the collagen network help to firm the skin and diminish wrinkles.

**Hyaluronic acid:** powerful moisturizer that improves the conditions of the cellular system. It helps the production of collagen improving the elasticity of the skin. Restores the volume of the skin and fights wrinkles. Excellent skin and eye tolerance. Able to absorb up to 1,000 times its weight in water.

**Imperata Cylindrica:** provides a long-lasting moisturizing effect. The *Imperata Cylindrica* plant thrives in dry, excessively saline environments and is native to many deserts, but it is especially prolific in the interior of Australia. The roots of *Imperata Cylindrica* contain high concentrations of potassium that provides an immediate and lasting moisturizing effect. In our formulation, *Imperata Cylindrica* helps the skin store and retain moisture efficiently, even in the driest of weather conditions.

### USE TIPS:

Apply to clean skin of the face, neck and / or neckline. For greater effectiveness, apply twice a day (morning and night).

**Formula:** aqua, alcohol, *acmella oleracea* extract, *imperata cylindrica* root extract, sodium hyaluronate, glycerin, peg-8, carbomer, acrylates/c10-30 alkyl acrylate crosspolymer, xanthan gum, phenoxyethanol, diazolidinyl urea, triethanolamine, sodium benzoate, potassium sorbate, parfum, alpha-isomethyl ionone, benzyl salicylate, linalool, butylphenyl methylpropional, hydroxycitronellal.

# SKIN CARE

## NAILINE MOISTURIZING FACIAL CREAM WITH ALOE VERA

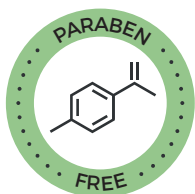

Jar 50ml.  
Display 16pcs.

With high contents of Aloe Vera, deeply moisturizes your face and neck skin whilst promoting the regeneration of healthy skin.

Ideal for treatment of skin dehydration and prevention of early skin aging.

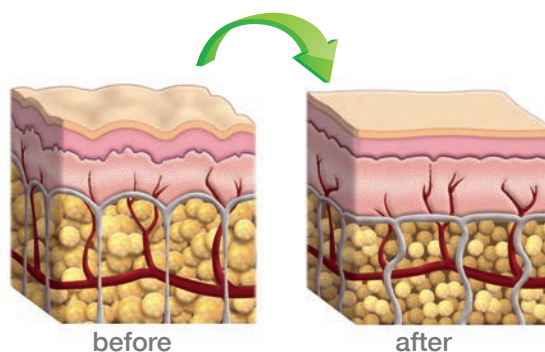

Other natural active principles:

- ▶ Karite Butter (Shea Butter): nourishes, softens and protects
- ▶ Castanea Sativa (Chestnut), which regulates the skin barrier function and helps treating dry skin problems
- ▶ Buxus Chinensis (also known as Jojoba Oil) whose ceramides have a similar composition to those found in the skin, regulating the moisturization and restructuring the fatty equilibrium of the skin. Jojoba's Oil contents of Vitamin E, collaborates to neutralize the free radicals (which are responsible for the early aging of skin).

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

Aloe vera is also known to help slow down the appearance of wrinkles as it can actively repair the damaged skin cells that cause the visible signs of aging. Components of Aloe Vera have been found to reverse degenerative skin changes by stimulating collagen and elastin synthesis.

### INSTRUCTIONS

Apply to thoroughly cleansed face and neck twice a day (morning and night).

**Formula:** aqua, aloe barbadensis leaf juice, caprylic / capric triglyceride, propylene glycol dicaprylate / dicaprinate, cetearyl alcohol, butylene glycol, glyceryl stearate, cyclopentasiloxane, butyrospermum parkii, simmondsia chinensis oil, lauryl pca, phenoxyethanol, peg-40 stearate, cyclohexasiloxane, xanthan gum, parfum, imidazolidinyl urea, ethylhexylglycerin, castanea sativa ( chestnut ) seed extract, tetrasodium edta, bht, alpha-isomethyl ionone, butylphenyl methylpropional, hexyl cinnamal, citronellol, linalool, geraniol, eugenol, coumarin, benzyl benzoate

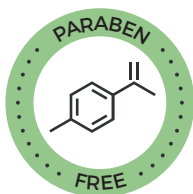

# SKIN CARE

## NAILINE MOISTURIZING FACIAL CREAM WITH ARGAN OIL

Jar 50ml.

With high contents of Argan Oil, deeply moisturizes your face and neck skin whilst promoting the regeneration of healthy skin.

Ideal for treatment of skin dehydration and prevention of early skin aging.

Other natural active principles:

- ▶ Karite Butter (Shea Butter): nourishes, softens and protects
- ▶ Castanea Sativa (Chestnut), which regulates the skin barrier function and helps treating dry skin problems
- ▶ Simmondsia Chinensis seed oil (also known as Jojoba Oil) whose ceramides have a similar composition to those found in the skin, regulating the moisturization and restructuring the fatty equilibrium of the skin. Jojoba's Oil contents of Vitamin E, collaborates to neutralize the free radicals (which are responsible for the early aging of skin).

**Moisturizing:** argan oil is rich in unsaturated fatty acids (responsible for maintaining the cell structure to retain water) while maintaining optimal hydration.

**Intensely nourishes:** the high presence of antioxidant vitamins such as vitamins A and E and other essential nutrients, reach the different layers of the skin. Moreover, as they are antioxidants, neutralize free radicals and prevent their formation.

**Powerful anti-aging and regenerative:** the antioxidant action of vitamins A and E helps restoring the natural metabolism, reducing wrinkles, improving skin condition thus keeping it soft and smooth. Penetrates easily and does not clog pores, thus acting on the inner layers.

### INSTRUCTIONS

Apply to thoroughly cleansed face and neck twice a day (morning and night).

*Formula: aqua, cetearyl alcohol, caprylic / capric triglyceride, propylene glycol dicaprylate / dicaprinate, butylene glycol, glyceryl stearate, cyclopentasiloxane, argania spinosa kernel oil, butyrospermum parkii butter, simmondsia chinensis seed oil, lauryl pca, phenoxyethanol, peg-40 stearate, cyclohexasiloxane, xanthan gum, ceteareth-20, imidazolidinyl urea, parfum, ethylhexylglycerin, castanea sativa seed extract, bht, butylphenyl methylpropional, cinnamyl alcohol.*

# SKIN CARE

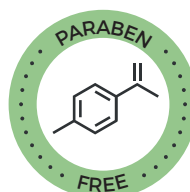

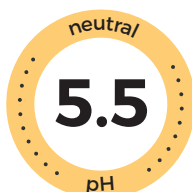

## NAILINE MOISTURIZING CREAM: MACADAMIAN NUT OIL

Jar 200ml.

Display 16 pcs (combined with Oat)

- ▶ With Macadamian Nut Oil.
- ▶ For the intensive care of body, hands and nails.
- ▶ Moisturizes, protects and regenerates your skin.
- ▶ Formula enriched with Aloe Vera and Urea.
- ▶ Quickly absorbed.
- ▶ Its physiological pH helps restoring the protective acid mantle of the skin.

Macadamia nut oil is a stable oil that is good for all skin types. However, it is specially beneficial for dry and mature skin due to its high concentration of palmitoleic acid.

In fact, this oil has the highest amount of palmitoleic acid than any other plant oil. This acid is naturally present in human sebum of young individuals. However, the amount reduces considerably as one ages. Hence, this oil is specially useful for the skin of old people. It softens and moisturizes the skin and also helps in healing mild wounds.

This oil is absorbed very easily by the skin and the scalp and helps the cells to rejuvenate. It prevents sunburns and also helps the skin retain its moisture. Besides the aforementioned benefits of macadamia oil for skin, this oil also acts as an antioxidant.

It prevents damage to skin cells by free radicals that leave the tell-tale signs of aging on the skin. Macadamia nut oil skin care is also attributed to its high vitamin E content. Its light and non-greasy quality makes it a preferred choice for many to nourish their hair.

### INSTRUCTIONS

Massage gently until cream is fully absorbed into skin.

*Formula: aqua, stearic acid, paraffinum liquidum, aloe barbadensis leaf juice, cetearyl alcohol, glycerin, petrolatum, urea, paraffin, dimethicone, macadamia integrifolia seed oil, ricinus communis seed oil, phenoxyethanol, hydrolyzed keratin, caprylyl glycol, triethanolamine, allantoin, parfum, tetrasodium edta, hexyl cinnamal, benzyl salicylate, hydroxycitronellal, butylphenyl methylpropional, citronellol, linalool, geraniol, hydroxyisohexyl 3-cyclohexene carboxaldehyde, limonene.*

## NAILINE MOISTURIZING CREAM: OAT

Jar 200ml.

Display 16 pcs (combined with Macadamia)

- ▶ Oat (Avena Sativa) has a variety of salts and minerals which help restructuring the membrane and have anti-oxydatives properties.
- ▶ For the intensive care of body and hands.
- ▶ Moisturizes, protects and regenerates your skin.
- ▶ Formula enriched with Macadamian Nut Oil and Urea.
- ▶ Quickly absorbed.
- ▶ Its physiological pH helps restoring the protective acid mantle of the skin.

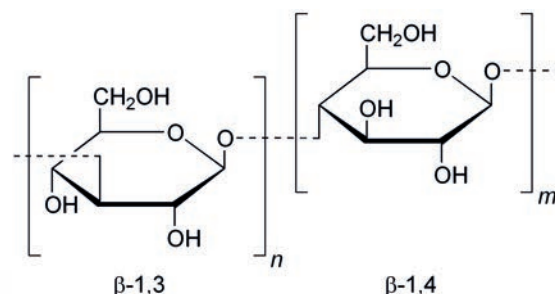

In the skin oat beta glucan helps with infection control and collagen stimulation. It stimulates fibroblasts and production of pro-collagen as well as the healing process. Treatment of burns is one area where oat beta glucans have been safely used for many years.

Hydration of the skin is improved by oat beta glucan. Whilst most isolated glucans are aggregates of a micron size or greater, Ceapro oat beta glucan is sub-micron sized, allowing it to penetrate well into the epidermis and even the dermis.

In the anti-ageing field, anti-wrinkle effects from topical application of oat beta glucan have been demonstrated. One study investigated skin penetration and anti-ageing effects of oat beta glucan. A half-face design, anti-wrinkle study used 27 subjects with 0.1% topical beta-glucan, or a placebo, applied twice a day for eight weeks. By the end of the study the digital analysis of silicone replicas of the beta-glucan treated areas showed significantly reduced roughness and wrinkling (of up to 15%) versus the placebo. Skin firmness was also increased.

Oats (as oatmeal) have been used to treat irritated skin for centuries. Avenanthramides in oats have been shown to be the main group of active polyphenol antioxidants responsible for their anti-inflammatory, anti-erythema (anti-redness), anti-pruritic (anti-itch) and anti-histamine properties.

### INSTRUCTIONS

Massage gently until cream is fully absorbed into skin.

**Formula:** aqua, *avena sativa*, propylene glycol, stearic acid, paraffinum liquidum, cetearyl alcohol, glycerin, urea, petrolatum, paraffin, dimethicone, *ricinus communis*, phenoxyethanol, *macadamia interglifolia*, allantoin, parfum, ethylexylglycerin, triethanolamine, hexyl cinnamal, benzyl salicylate, hydroxycitronellal, butylphenyl methylpropional, citronellol, linalool, geraniol, hydroxyisohexyl 3-cyclohexene, carboxaldehyde, limonene.

## NAILINE ALOE VERA HAND & NAILS CREAM

Tube 50ml. / Bottle 300ml.  
Display 18 pcs.

- ▶ For intensive hands & nails care.
- ▶ Formula rich in active principles, based on Aloe Vera, providing magnificent results.
- ▶ Its pH 5.5 restores skin's hydrolipidic mantle. With non greasy texture and a soft fragrance.
- ▶ Ideal for dry skin, red skin, damaged or aged skins.
- ▶ Formula enriched with Macadamia Nut Oil, Urea, Keratin and Castor Oil.

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

Macadamia nut oil is specially beneficial for dry and mature skin due to its high concentration of palmitoleic acid. This oil has the highest amount of palmitoleic acid than any other plant oil. This acid is naturally present in human sebum of young individuals. However, the amount reduces considerably as one ages. Hence, this oil is specially useful for the skin of old people. It softens and moisturizes the skin and also helps in healing mild wounds. This oil is absorbed very easily by the skin and the scalp and helps the cells to rejuvenate. It prevents sunburns and also helps the skin retain its moisture. Besides the aforementioned benefits of macadamia oil for skin, this oil also acts as an antioxidant. It prevents damage to skin cells by free radicals that leave the tell-tale signs of aging on the skin.

Urea is an important part of your skin's natural moisturizing system. Scientists call it a true "humectant" because it is an important component of the body's Natural Moisturizing Factor (NMF). Urea causes hard dry skin cells to "unpack" and expose their water binding sites, thus enabling the cell to absorb and retain additional moisture. This action is also known as hydrotropic solubilization and several independent clinical investigations and studies prove that it works.

The active ingredients include keratin which helps to strengthen the nails and promote growth; vitamin E, which helps to heal damage; and certain plant oils, designed to soften the cuticles.

Castor oil is a natural remedy for dry skin. The triglyceride fatty acids present in Castor oil helps the skin to restore the natural moisture balance, thus preventing unnecessary dryness. Castor oil for is extremely beneficial when used in winter as it prevents the skin from drying up. The oil reacts with water and provides softness to the skin.

### INSTRUCTIONS

Massage gently until cream is fully absorbed into skin.

*Formula: aqua, stearic acid, paraffinum liquidum, aloe barbadensis leaf juice, cetearyl alcohol, glycerin, petrolatum, urea, paraffin, dimethicone, macadamia integrifolia seed oil, ricinus communis seed oil, phenoxyethanol, hydrolyzed keratin, caprylyl glycol, triethanolamine, allantoin, parfum, tetrasodium edta, hexyl cinnamal, benzyl salicylate, hydroxycitronellal, butylphenyl methylpropional, citronellol, linalool, geraniol, hydroxyisohexyl 3-cyclohexene carboxaldehyde, limonene.*

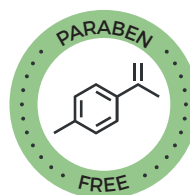

# SKIN CARE

## NAILINE ALOE VERA GEL 100% PURE

Bottle 250ml.

- ▶ Natural Cosmetics for normal, dry, damaged or aged skin. Great for use after exposure to sun, outdoor events and also after depilation or shaving. Its use is recommended also after exposure to harsh environments (smoke, pollution, ...).
- ▶ Intensive moisturization, nourishes, protects and regenerates. Its use helps preventing and reducing skin's spots caused by exposure to sun.

Aloe Vera contains over 75 known active ingredients (and probably many more). Also included are 19 of the 20 amino acids required by the human body and 7 of the 8 essential amino acids (that the body cannot make), as well as vitamins and minerals. There are 20 "critical" Amino Acids in human metabolism, but the body can only make 12, the other 8 have to be obtained from food. These are Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Valine, and Tryptophan.

Aloe Vera contains also contain useful enzymes like Amylase, Bradykinase, Catalase, Cellulase, Lipase, Oxidase, Alkaline Phosphatase, Proteolytiase, Creatine Phosphokinase, Carboxypeptidase. Most of these are beneficial to human metabolism. Aloe Vera contains important minerals like Calcium, Chromium, Copper, Iron, Magnesium, Manganese, Potassium, Phosphorous, Sodium, and Zinc.

As most of us know that the mono-saccharides are the familiar glucose and fructose. It is believed that the more complex long-chain sugars are the poly-saccharides give Aloe Vera its unique healing and immuno-stimulating properties.

Aloe Vera contains useful vitamins. These include A (beta-carotene and retinol), B1 (thiamine), B2 (riboflavin), B3 (niacin), B6 (pyridoxine), B12 (cyanocobalamin), C (ascorbic acid), E (tocopherol) and Folic Acid.

Salicylic Acid, a substance similar to aspirin that can help reduce fever and inflammation is also found in Aloe vera. It also contains Saponins and Sterols. Saponins are natural soapy substances that have both cleansing and antiseptic properties while Sterols are naturally occurring plant steroids with analgesic, anti-inflammatory, and antiseptic properties.

Studies have shown that aloe vera speeds the healing process, particularly in burns, including those from radiation. It is also used by dermatologists to speed healing after facial dermabrasion, which helps remove scars from the top most layers of the skin. The other health benefits from the use of aloe vera include helping to soothe skin injuries affected by burning, skin irritations, cuts and insect bites, and its bactericidal properties relieve itching and skin swellings.

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

Aloe vera is also known to help slow down the appearance of wrinkles as it can actively repair the damaged skin cells that cause the visible signs of aging. Components of Aloe Vera have been found to reverse degenerative skin changes by stimulating collagen and elastin synthesis.

## NAILINE PLUS BODY CREAM

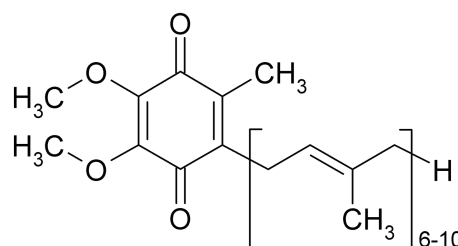

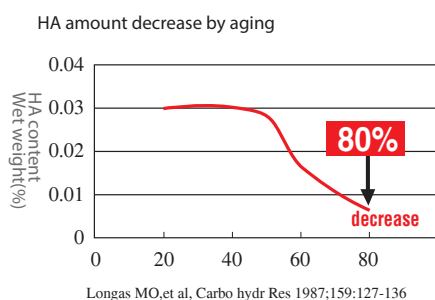

- ▶ Over the years, the amount of Hyaluronic Acid naturally produced decreases and, as a consequence, skin dehydrates, loses volume and youth, therefore wrinkles appear.
- ▶ Its 5.5 pH restores skin's protective hydrolipidic mantle. Rehydrates your skin, restores volume and elasticity, prevents and fights wrinkles while recovering a young skin.
- ▶ Anti-aging properties provided by its Coenzyme Q10 (Ubiquinone) contents, an efficient anti-oxidative, that prevents collagen degradation.
- ▶ Formula enriched with Aloe Vera and Macadamian Nut Oil.

Especially skin contains large amount of hyaluronic acid which amounts to about 50% of total hyaluronic acid existing in a live body. In the skin tissue hyaluronic acid exists in between skin cells and “keeps inter-cellular gap to maintain skin tissue structure” and “retains moisture to keep skin moist”. In this way, hyaluronic acid keeps skin moist and elastic. However, it is reported that hyaluronic acid contents in the skin decreases as one gets aged and is believed that the decrease is a cause of fading freshness or elasticity of skin, while developing wrinkles by aging.

Coenzyme Q10, also known as CoQ10 or ubiquinone, is a natural antioxidant in the body whose purpose is to combat damage from free radicals that contribute to aging. Ironically, as we age, the levels of Coenzyme Q10 start to drop in the body, leading to a decrease in the ability of cells to withstand stress and regenerate.

A handful of studies have shown that coenzyme Q10 (CoQ10) may have an effect on skin and the appearance of wrinkles, most notably by reducing UV damage, stimulating healthy collagen production, and reducing substances in damaged skin that wreck havoc on its support structure.

Massage gently until cream is fully absorbed into skin. Use once a day, twice in case of dry skin.

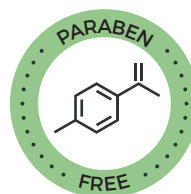

*Formula: aqua, aloe barbadensis leaf juice, hydrogenated polyisobutene, isopropyl palmitate, dimethicone, hyaluronic acid, macadamia ternifolia seed oil, octyldodecanol, glyceryl stearate, peg-100 stearate, cetyl alcohol, caprylic/capric triglyceride, phenoxyethanol, propylene glycol, peg-20 castor oil, parfum, imidazolidinyl urea, acrylates / c10-30 alkyl acrylate crosspolymer, glycerin, triethanolamine, alcohol denat, bht, ethylhexylglycerin, zea mays oil, peg-60 hydrogenated castor oil, tetrasodium edta, camellia sinensis leaf extract, sodium hyaluronate, ubiquinone, calcium pantothenate, inositol, retinol, diazolidinyl urea, rosa moschata seed oil, sodium benzoate, potassium sorbate, biotin, tocopheryl acetate, coumarin, hydroxyisohexyl 3-cyclohexene carboxaldehyde, alpha-isomethyl ionone, geraniol, limonene*

## NAILINE LIP BALM

Stick 4g.  
Display 48 pcs.

- ▶ Lip protector, provides intense moisturization, humectation and emollience.
- ▶ With sun protection filter.
- ▶ Treatment and protection for your lips.
- ▶ 4 references: Aloe Vera, Strawberry, Shea Butter, Natural.
- ▶ Available in SPF4 and SPF15

Lip balm is one of the essential cosmetics, used to maintain the softness and lusciousness of the lips, especially during the dry weather of winters. It serves to relieve chapped or dry lips, angular cheilitis or stomatitis, and cold sores. The balm keeps the lips hydrated and helps them retain their shine.

Chapped lips are, of course, the result of our lips being too dry. Everyone experiences dry chapped lips at one time or another, but some of us have a severe and chronic problem. The explanation for severe and chronic dry lips is that our skin has lost its moisture retention capacity.

As a consequence, our lips become easily chapped. The chapping further reduces the moisture retention capacity and this vicious circle results in the problem becoming chronic and increasingly severe.

Shea butter's is absorbed by the skin cells. Because it improves the moisture retention capacity of your lips, your lips become dry and chapped much less frequently.

### INSTRUCTIONS

1. Remove the cap of the stick.
2. Hold the stick with one hand and enclose the fingers of the other over the grooved area, at the bottom of the stick.
3. Rotate your lower hand clockwise. You will see the waxy stick coming out.
4. Place the waxy stick on your lower lip and glide it horizontally, from one end of the lip to the other.
5. Next time, place the waxy stick on the upper lip and repeat the procedure.

*Formula Aloe Vera:* paraffinum liquidum, ozokerite, isopropyl myristate, myristyl lactate, ethylhexyl methoxycinnamate, copernicia cerifera cera, theobroma cacao seed butter, butyl methoxydibenzoylmethane, aloe barbadensis extract, tocopheryl acetate, bisabolol, ricinus communis seed oil, bht, propylene glycol, ascorbyl palmitate, glyceryl stearate, citric acid, ci 19140, ci 42090.

# SKIN CARE

## NAILINE SERUM FOR UNDER EYE BAGS AND DARK CIRCLES

Airless Bottle 5ml.

- ▶ IMMEDIATE RESULTS
- ▶ Tenses
- ▶ Drains
- ▶ For all skin types

Nailine Serum for Under Eye Bags and Dark Circles is a serum that reduces bags and dark circles immediately.

Its effects lasts between 6 and 8 hours.

Its innovative formula with peptides of last generation has an immediate effect that thanks to its draining power and tensor effect makes the bags and dark circles visibly diminish in a few minutes (in more than 70-80%).

### IMMEDIATE RESULTS

### TENSOR EFFECT

### DRAINS

### USE TIPS:

- Apply a small amount, the equivalent of a grain of rice (in case of very large dark circles twice the amount may be needed), on the inner area of the circles and spread it gently towards the outside area.
- In the case of having applied an excessive amount or not having spread it correctly, a white residue may appear, easily removed with a wet wipe.
- In a few moments there will be a tensor and draining effect that will make bags and dark circles disappear by up to 80%.
- Do not make sudden gestures in the area for the first 2 minutes to obtain the best results.
- The results will last approximately 6 to 8 hours. Depending on the characteristics of each person this duration may vary.
- It can be applied before makeup. The correct order would be to apply the moisturizing cream, or treatment that we usually use, then, once completely absorbed, apply Nailine Serum and finally once the product is dry, apply the makeup.
- Highlight that it is not a treatment product but has a "flash" effect. Once its has passed, the skin returns to its previous state.

*Formula: aqua, sodium silicate, butylene glycol, citric acid, magnesium aluminum silicate, phenoxyethanol, caprylyl glycol, xanthan gum, diazolidinyl urea, sodium benzoate, potassium sorbate, acetyl hexapeptide-8.*

## NAILINE NAIL CARE: TOP COAT - FAST DRY

Bottle 12ml.

**TARGET  
ALL NAIL  
TYPES**

- ▶ Shields your manicure in a flash.
- ▶ Ultra fast drying base coat.
- ▶ Long lasting color.

### FORMULA

Nitrocellulose Free

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1  
MIRACLE  
WEAR  
EXTENSION**

**2  
FLASH  
DRY  
FINISH**

**3  
VERY  
HARD  
FILM**

- Fast Dry Top Coat: leaves nails touch dry in a Flash
- Instantly locks in nail color under a strong, smooth coating that durably protects nail polish against chipping to prolong its longevity
- Provides instant extra gloss to nail color and refreshes for a long time
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. Apply one coat on dry nail polish
2. Re-apply twice a week if needed to revive the gloss

*Formula: ethyl acetate, butyl acetate, cellulose acetate butyrate, isopropyl alcohol, acetyl tributyl citrate, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, acrylates copolymer, benzophenone-1, trimethylpentanediyl dibenzoate, n-butyl alcohol, ci 60725*

## NAILINE NAIL CARE: TOP COAT - GLITTER

Bottle 12ml.

**TARGET  
ALL NAIL  
TYPES**

- ▶ Shiny golden finish for your nails
- ▶ Opulent Volume.
- ▶ Ultra brilliant shine.

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1  
GOLDEN  
GLITTER**

**2  
INTENSE  
SHINE**

**3  
SHORT  
DRYING  
TIME**

- Top coat nail polish with multi-effect glitter and a shiny golden finish for creating original and dazzling nails.
- Can be applied to bare nails or used to dress up nail polish that is already dry. The polish's shiny film and decorative features lend an extraordinary glass effect.
- Short drying time.
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. apply one coat on dry nail polish (or bare nails).

NOTE: do not apply on wet nail polish.

*Formula: ethyl acetate, butyl acetate, nitrocellulose, polyethylene terephthalate, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, acetyl tributyl citrate, isopropyl alcohol, silica, polyurethane-11, benzophenone-1, ci 19140, ci 77000, ci 60725*

# NAIL CARE

## NAILINE NAIL CARE: TOP COAT - LONG LASTING

Bottle 12ml.

- ▶ 10-day wear Top Coat.
- ▶ Fast drying base coat.
- ▶ Long lasting color & shine.

### Test Results:

Between 6 and 10 days of steadfast unbreakable wear (80% of users)

Between 4 and 10 days of dazzling anti-dulling shine (80% of users)

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**  
**GREAT  
PROLONGED  
WEAR**

**2**  
**ENHANCED  
COLOR &  
SHINE**

**3**  
**FAST  
DRYING  
TIME**

- Developed to significantly extend the duration of the manicure and achieve a glowing brilliant shine.
- Prevents nail polish chipping and promotes opulent gloss and color endurance over time.
- Clear transparent nitrocellulose-based formula to provide your nail polish with an incredible level of shine.
- Fast drying time.
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. apply one coat on a dust free nail polish for immediate and long term shield effect.
2. use regularly in between manicures to refresh color and optimize shine.

*Formula: ethyl acetate, butyl acetate, nitrocellulose, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, isopropyl alcohol, acetyl tributyl citrate, heptane, n-butyl alcohol, benzophenone-1, trimethylpentanediyl dibenzoate, ethylhexyl methoxycinnamate, ethylhexyl salicylate, polyvinyl butyral, ci 60725*

# NAIL CARE

## NAILINE NAIL CARE: TOP COAT - PLUMPING

Bottle 12ml.

**TARGET  
ALL NAIL  
TYPES**

- ▶ Matte finish for any nail polish.
- ▶ Prolonged wear.
- ▶ Protects nail color from fading.

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1  
MATTE  
FINISH**

**2  
EXTENDED  
WEAR**

**3  
SHORT  
DRYING  
TIME**

- Instantly transforms shiny nails to a matte finish. Extends the wear of your manicure.
- Applies smoothly and evenly. Protects nail color from fading.
- The quick-drying top coat is fortified with mattifiers that instantly transforms any manicure into a velvety, matte finish.
- The specifically designed formula applies evenly and preserves the look and texture of nail color.
- With UV filter to prevent decoloration and yellowing.

### INSTRUCTIONS

1. apply one coat on dry nail polish.

NOTE: do not apply on wet nail polish.

*Formula: ethyl acetate, butyl acetate, nitrocellulose, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, acetyl tributyl citrate, isopropyl alcohol, silica, stearalkonium bentonite, acrylates copolymer, etocrylene, trimethylpentanediyl dibenzoate, polyvinyl butyral, ci 60725*

## NAILINE NAIL TREATMENT: NAIL REVIVE

**TARGET**  
DRY & ROUGH  
NAILS  
CUTICLES

Bottle 12ml.

- ▶ Extreme Moisture Nail Reconditioner
- ▶ Nails are deeply nourished
- ▶ Nails are shiny, smooth, tonic and flexible

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**  
DEEP  
NAIL  
NOURISHMENT

**2**  
SMOOTHNESS  
&  
SHINE

**3**  
SOFTENED  
CUTICLES

- A massage oil specially developed to quickly and deeply nourish, hydrate and recondition very dry and rough nails and cuticles.
- Features highly concentrated Pure Sweet Almond Oil, a miraculous natural treasure which instantly moistures, nourishes and soothes severely dried nails and cuticles.
- Enriched with Vitamins E and F selected for their ability to maintain the natural hydration of nails and cuticles for a long extended period and prevent nails from drying again.
- Lemon essence to provide a delicate natural scent.

### INSTRUCTIONS

1. apply a drop on bare nails and nail contours.
2. Massage in to facilitate its absorption.
3. Wash and dry your nails carefully if a nail polish is to be applied.

*Formula: prunus amygdalus dulcis oil, citrus limon peel oil, ricinus communis seed oil, tocopheryl acetate, glyceryl linoleate, tocopherol, glyceryl linolenate, ci 4700, glycine soja oil.*

# NAIL CARE

## NAILINE NAIL TREATMENT: NO BITE

Bottle 12ml.

- ▶ Prevent nail biting
- ▶ Fast drying
- ▶ For all nail types

**TARGET  
BITTEN  
NAILS**

### FORMULA

Nitrocellulose Free

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**

**STRONG  
BITTER  
TASTE**

**2**

**MOISTURIZES  
&  
SOFTENS**

**3**

**FAST  
DRY**

- With 2 active ingredients to avoid and prevent nail or cuticle biting:
  - » Denatonium Benzoate: strong bitter taste.
  - » Garlic extract: antiseptic & scentless
- To soothe nails and restore nail's suppleness, the formula contains Vitamin E and Calcium Panthotenate (hydrating and anti-oxidizing)
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. apply 1 or 2 coats over your nails (bare or colored) until nail biting stops.

*Formula: butyl acetate, ethyl acetate, mek, cellulose acetate propionate, isopropyl alcohol, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, denatonium benzoate, n-butyl alcohol, propylene glycol, aqua, tocopheryl acetate, calcium panthotenate, allium sativum bulb extract, ci 60725*

## NAILINE NAIL TREATMENT: RIDGE FILLER

**TARGET  
RIDGED  
NAILS**

Bottle 12ml.

- ▶ Ultra Garnishing & Repairing Nail Ridge Filler
- ▶ Deep ridges virtually vanish
- ▶ Yellow and small nail imperfections are erased

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**

**RIDGE  
VANISHER**

**2**

**GREAT  
SMOOTHNESS**

**3**

**HYDRATION  
&  
STRENGTH**

- Features double concentration of Garnishing Minerals to immediately fill in nail ridges, even deep and numerous, and hide all imperfections.
- With Extraordinary Health & Beauty Revealer that cements keratin cells together and smooths out the nail surface creating a high refractive shield for maximum glow and resistance. With a Blend of Vitamins E and C that are hydrating and anti-oxidizing to promote nail strength and fight senescence of keratin cells.
- Pink opaque nitrocellulose-based formula for a light satin finish.
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. Apply one or two coats on bare nails.

*Formula: butyl acetate, ethyl acetate, nitrocellulose, acetyl tributyl citrate, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, isopropyl alcohol, talc, acrylates copolymer, stearalkonium bentonite, hydrogenated castor oil / sebacic acid copolymer, styrene / acrylates copolymer, benzophenone-1, n-butyl alcohol, tocopheryl acetate, trimethylpentanediyl dibenzoate, ci 77891, polyvinyl butyral, aqua, methylpropanediol, ci 77742, methylthiopropylamido acetyl methionine, ci 77491, magnesium ascorbyl phosphate, ci 19140*

## NAILINE NAIL TREATMENT: SPLITTING NAILS

**TARGET  
SPLITTING  
NAILS**

Bottle 12ml.

- ▶ Nail anti-splitting remedy
- ▶ Oily treatment
- ▶ Hexanal + Garlic Extract

### CERTIFIED RESULTS:

*For 70% of users, splitting is reduced  
For 82% of users, nails are harder and less fragile  
For 73% of users, condition of their nails is improved  
For 68% of users, nails are prevented from breakage*

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**

**ANTI-  
SPLITTING  
REMEDY**

**2**

**HARDENER**

**3**

**HYDRATION**

- Features Chaulmoogra Oil, a healing ancestral oil rich in fatty acids, and Apricot Oil, rich in vitamins and anti-oxidants, to deeply hydrate nails and increase their suppleness.
- With Silicone Resin and a specific Plasticizer that is vegetable-sourced to reduce water penetration into the nail plate.
- Incorporates Hexanal, a powerful hardening clinically tested aldehyde that significantly improves the condition of the nail and is not listed as an allergen.
- Enriched in Garlic Extract to stimulate blood circulation and keratin forming.
- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. apply two coats on bare nails.

*Formula: butyl acetate, ethyl acetate, nitrocellulose, isosorbide dicaprylate / caprate, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, alcohol, isopropyl alcohol, stearalkonium bentonite, silica, diacetone alcohol, hexanal, ci 7781, prunus armeniaca kernel oil, trimethylpentanediyl dibenzoate, taraktogenos kurzii seed oil, acrylate / dimethicone copolymer, propylene glycol, aqua, phosphoric acid, ci 77491, allium sativum bulb extract, ci 15850, ci 19140*

## NAILINE NAIL TREATMENT: WHITENING MASK

Bottle 12ml.

**TARGET  
ALL NAIL  
TYPES**

- ▶ Peel-off formula
- ▶ Brighten your nails
- ▶ Solvent-free, water-based

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**  
NATURAL  
WHITENER

**2**  
PEEL-OFF  
MASK

**3**  
SOLVENT  
FREE

Helps remove yellowness out of nails by use of natural extracts known to have a brightening effect on the keratin.

Activated with whitening agents, it forms a gentle, peelable film on the nail plate that infuses its activations as it dries and for as long as it is on the nail. It is easily removable by peel-off and just like a face mask, nails will look brighter.

With Citric Acid, Grapefruit AHA and Lemon Extract.

### INSTRUCTIONS

1. Apply one rich coat on the nails.
2. Leave to dry until completely transparent. Leave on the nail.
3. Peel off when needed

*Formula: aqua, polyvinyl acetate, ppg-3 methyl ether, citric acid, phenoxyethanol, acrylates copolymer, disiloxane, ammonium hydroxyde, propylene glycol, peg-12 dimethicone, ethyexylglycerin, lactic acid, malic acid, glycolic acid, citrus paradisi fruit extract, citrus limon fruit extract, tocopherol.*

# NAIL CARE

## NAILINE NAIL TREATMENT: YELLOW NAILS

Bottle 12ml.

**TARGET  
YELLOW  
NAILS**

- ▶ 2 in 1: anti-yellow color & care
- ▶ Fast drying
- ▶ For those who don't want to use a nail color but want to display healthy nails

**FORMULA DOES NOT CONTAIN:**

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

**1**  
INSTANT  
CONCEALER

**2**  
NAIL  
ILLUMINATOR

**3**  
HYDRATION  
PROMOTER

Concealer for yellowing, stained or poorly aging nails that look unsightly.

Slightly tinted, garnishing texture that provides nails with a satin natural make-up. Dries quickly.

Formulated with an innovative Porcelain Flower Extract (with healing and illuminating properties), Lime Tree Extract and Vitamin E (hydrating and hardening).

- With UV filter to prevent decoloration and yellowing

### INSTRUCTIONS

1. Apply one or two coats on bare nails.

*Formula: butyl acetate, ethyl acetate, nitrocellulose, acetyl tributyl citrate, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, isopropyl alcohol, acrylates copolymer, stearalkonium bentonite, styrene / acrylates copolymer, caprylic / capric triglyceride, benzophenone-1, titanium dioxide [nano], CI 77891, tocopheryl acetate, mica, propylene glycol, aqua, aluminum hydroxide, methicone, tilia platyphyllos extract, hoya lacunosa flower extract, tin oxide*

- ▶ It does not irritate nor stains the skin.
- ▶ Colorless and practically odorless.
- ▶ It does not dry the skin.

“a nail polish-lacquer removing solution which is non-irritating and non-sensitizing to the skin”

### INSTRUCTIONS

1. Take a cotton ball or cotton pad and place it over the bottle opening.
2. Tip the bottle to get some nail polish remover on the cotton ball or pad.
3. Press the wet cotton ball or pad over your nail for 5 seconds. Wipe thoroughly (you will need to use some pressure).
4. The nail polish should come off easily.
5. Get a new pad or ball when the one you are using is full of nail polish color.
6. Go over your nails with a fresh cotton ball or cotton pad with nail polish remover to remove any excess residue and to clean your nails completely.
7. Wash your hands

*Formula: isopropyl alcohol, butyrolactone, ricinus communis, ethyl linoleate, isopropyl myristate, triticum vulgare (wheat) germ oil, cetearyl ethylhexanoate, tocopherol, bht, retinyl palmitate, retinyl acetate, tocopheryl acetate, ci 42051*

# NAIL CARE

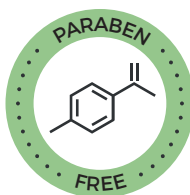

## NAILINE NAIL POLISH REMOVER WITHOUT ACETONE

Bottle 125ml.

With vitamin E in order to preserve the degree of moisture and essential nutrition keeping them flexible and bright, making your nails look pretty and healthy.

- ▶ It does not whiten the nails.
- ▶ Moisturizes and nourishes the nails.
- ▶ It does not irritate nor stains the skin.
- ▶ Colorless and practically odorless.
- ▶ It does not dry the skin.

“a nail polish-lacquer removing solution which is non-irritating and non-sensitizing to the skin”

### INSTRUCTIONS

1. Soak a cotton pad with the remover
2. Gently press the cotton pad to the nail bed, wait a few seconds...
3. Wipe the pad down the nail towards the tip while keeping the pressure.

*Warning: keep away from children. Flammable. Keep away from heat, sparks and flame.*

*Formula: ethyl acetate, butyl acetate, isopropyl alcohol, propylene glycol, panthenol, tocopheryl acetate, aroma, limonene, citral, CI 42090.*

# NAIL CARE

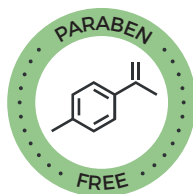

## NAILINE EXPRESS NAIL POLISH REMOVER WITHOUT ACETONE

### FORMULA

without Acetone

- ▶ Instant removal of nail polish.
- ▶ Acetone Free.
- ▶ No cotton wool needed.

Bottle 70ml.

“a quick nail polish-lacquer removing solution which is non-irritating to the skin”

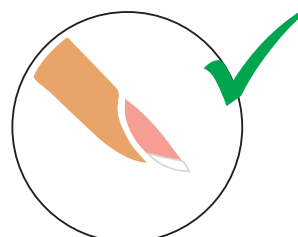

Just 2 simple steps:

**1. Dip In**

**2. Twist**

**Done!**

Flammable, Keep away from fire, heat, or flame. Keep out of reach of children. In case of accidental eye contact flush with water thoroughly and get medical attention.

Formula: ethyl acetate, alcohol, purified water, parfum

# HAIR CARE

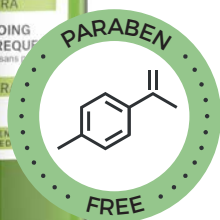

## LACTODIOL FREQUENCY SHAMPOO: ALOE VERA

Bottle 100ml  
(travel size)

Bottle 400ml.

- ▶ Intense moisturization, nourishes, revitalizes and fortifies the hair from the root.
- ▶ For normal hair, dry and very dry hair.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Aloe Vera contains amino acids, vitamins and minerals that nourish and revitalize the hair. Ideal for dry hair, it is also a powerful conditioner. Softens and strengthens deeply the hair while enhancing its shine.

### Hair Loss

Aloe vera has been heralded as a treatment for hair loss, due to many of the vitamins and minerals found within the plant mimicking the chemistry of the human body. In addition, chemicals can hasten hair loss, so eliminating hair products with harmful ingredients will allow damaged hair follicles to heal. It has anti-inflammatory properties of and therefore helps in fighting against Androgenetic Alopecia.

### Hair Growth

In addition to halting hair loss, aloe vera is believed to promote the growth of new hair. Aloe vera balances PH levels and stimulates scalp enzymes, which in turn prompts hair growth. Over time, the scalp will shed the dead hair follicles and new hair follicles will grow in their place.

### Dandruff

People who suffer from dandruff, which is characterized by a flaky, itchy scalp, should consider aloe vera for relief. Causes of dandruff include stress, diets high in sugar and low in fats, excessive blow drying and shampooing hair in hot water.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, aloe barbadensis leaf juice, peg-150 distearate, disodium lauryl sulfosuccinate, sodium cocoamphoacetate, glycerin, parfum, polyquaternium-7, citric acid, tetrasodium edta, magnesium nitrate, potassium sorbate, sodium benzoate, benzoic acid, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, ci 19140, ci 42051

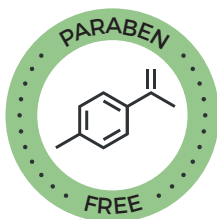

# HAIR CARE

## LACTODIOL FREQUENCY SHAMPOO: ARGAN

Bottle 400ml.

- ▶ Restores hair to its original softness and natural shine.
- ▶ For all hair types
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Argan Oil is rich in both Vitamin A and E. Its contents of essential fatty acids help restore your hair to its original softness and natural shine. Strengthens and deeply moisturizes your hair, all the way from the follicle to the tip.

Argan oil is a product of the Moroccan argan tree. It is extracted from the kernels of the argan tree to be used as a moisturiser, conditioner and softener for skin and hair. Often dubbed 'liquid gold' for its amazing qualities, it contains large amounts of beneficial nutrients including vitamin E and fatty acids, which have many positive effects when applied correctly.

### *Benefits of Using Argan Oil on Hair*

Vitamin E is extremely beneficial for hair, and is found in argan oil in high quantities. Vitamin E promotes healthy hair growth as it contains antioxidants, which help boost cells and encourage them to produce healthy hair – it has even been used for hair regrowth.

Argan oil can act as a moisturiser for the scalp to fight dandruff and dry scalp. It can also promote the growth of healthy, strong hair as opposed to thin, brittle hair. It can

even undo some of the damage done through chemical treatments and dyes, and can be used to treat split ends.

Immediate benefits can also be seen in people who use argan oil on their hair. It is an excellent agent for taming frizz and promoting shine and gloss, as well as softer, more manageable hair.

Argan oil is non-irritating and actually reverses much of the damage done by artificial chemicals and treatments on hair. It is often used in its pure form for healthy, soft and shiny hair.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

*Formula: aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, argania spinosa kernel oil, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, ci 15985*

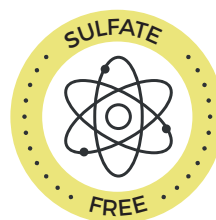

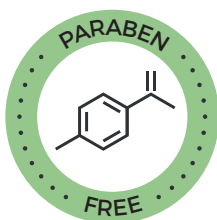

# HAIR CARE

## LACTODIOL FREQUENCY SHAMPOO: CHAMOMILE

Bottle 400ml.

- ▶ Adds sparkle and brilliance to light-colored hair.
- ▶ Gently cleanses, as well as effectively soothes and nourishes your hair and scalp.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Adds sparkle and brilliance to light-colored hair. The Chamomile extract intensifies blond highlights with its yellow pigments. Gently cleanses, as well as effectively soothes and nourishes your hair and scalp.

Natural yellow pigment found in chamomile petals is clinically shown to lighten blond to light-brown hair naturally.

### *Benefits of Using Chamomile on Hair*

Gently cleanses while preserving the natural balance of hair and scalp

Naturally enhances golden highlights

Leaves hair radiant and glossy

Chamomile is also found to be highly effective in preventing dandruff and soothing an itching scalp

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, chamomilla recutita flower extract, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, potassium sorbate, ci 14720, ci 19140, coumarin

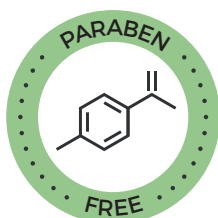

# HAIR CARE

## LACTODIOL FREQUENCY SHAMPOO: OLIVE OIL

Bottle 400ml.

- ▶ Nourishes the hair to soften and restore the hair from root to tip.
- ▶ For dry/damaged hair.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Nourishes the hair to soften and restore the hair from root to tip. Olive oil is rich in fatty acids, including oleic acid especially good for hair, and antioxidant vitamin E to protect against free radicals.

Olive oil is full of vitamins, minerals and proteins that make it an essential beauty solution. Naturally packed with anti-aging antioxidants and hydrating squalene, makes olive oil for hair great for restoring health and luster. Olive oil is also rich in vitamins A and E, which protect the keratin in hair and help to lock in moisture.

### *Benefits of Using Olive Oil on Hair*

Leaves hair shiny, restored, and soft to the touch.

Cleanses hair while adding benefits of antioxidants (Vitamin A & E and Polyphenols) to give hair strength, vitality, and luster.

Dandruff: Olive oil is a great remedy for dandruff as it is a natural moisturizer.

Split ends: In the dry winter months, when hair is more prone to breakage, split ends and flyaways can make your hair look unhealthy and unkempt. Using olive oil can help smooth away those problems.

Extra softness: Olive oil can help soften your hair and seal brittle ends. Olive oil is a natural conditioner that helps to prevent dryness, bring back shine and make your hair feel soft.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, olea europaea fruit oil, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, ci 19140, ci 42051, ci 15985

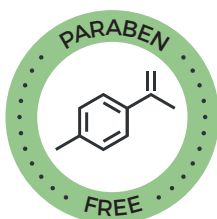

# HAIR CARE

## LACTODIOL FREQUENCY SHAMPOO: TEA TREE

Bottle 400ml.

- ▶ Reconditions, repairs and protects hair while moisturizing strands and soothing the scalp.
- ▶ For dandruff, dry scalp and hair growth
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

The tea tree oil is a gentle but powerful cleanser removes excess sebum without drying the scalp. With antifungal and antibacterial properties. It also stimulates hair growth.

### Benefits of Using Tea Tree Oil on Hair

This oil is extremely effective for hair and scalp treatment. Be it dandruff, split ends, fungal infection, itchy and other scalp concerns, the Tea Tree Oil will give your scalp and hair a healthy treat.

The oil from tea tree is well known for its effective treatment of viral and bacterial infections. These attributes leave your hair protected against many forms of scalp irritants.

This medicinal oil nourishes and moisturizes both scalp and hair.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, melaleuca alternifolia leaf oil, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, linalool, citronellol, butylphenyl methylpropional

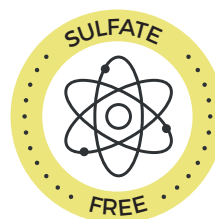

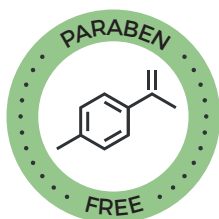

# HAIR CARE

## LACTODIOL TREATMENT SHAMPOO: COLOR-TREATED HAIR

Bottle 400ml.

- ▶ With Vitamin E (antioxidant)
- ▶ Enriched with Red Fruits Extract.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Its Vitamin E has antioxidant properties that help repair damaged hair follicles and encourages healthy hair growth. Gently strengthens hair from root to tip. Cleanses while preserving haircolor.

Vitamin E is a great stimulant for growth of capillaries, when the capillaries are healthy and profuse, the blood circulation in the scalp will be enhanced which will therefore promote strong and healthy growth of hair. It also deeply conditions the hair from root to shaft to make it healthier and shinier, and even prevents premature graying.

Strawberries are great sources of vitamin C – a nutrient that encourages iron absorption and promotes hair growth. It has also been found that a deficiency of this nutrient can lead to hair splits. Strawberries are also loaded with silica, which is known to prevent baldness and help in hair growth. Strawberries are also rich in magnesium, the deficiency of which can cause fungal growth on the scalp.

Raspberries are full of B Vitamins. These are essential when it comes to taking total care of your hair right from reducing hair fall, to lesser graying and better growth. Raspberries have a good content of folic acids which are brilliant for inducing hair growth. Biotin is found in abundance in raspberries, thus giving good shine to your hair. Raspberries also have good amount of Vitamin C.

Vitamin C, found in blackberries, is largely responsible for collagen production and contributes to strong hair. The antioxidants help combat the harmful and damaging effects of the environment on the hair.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, tocopheryl acetate, ethylhexyl methoxycinnamate, fragaria ananassa fruit extract, rubus fruticosus fruit extract, rubus idaeus fruit extract, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchlorisothiazolinone, magnesium chloride, methylisothiazolinone, potassium sorbate, sodium benzoate, bht, ci 19140, ci 16035

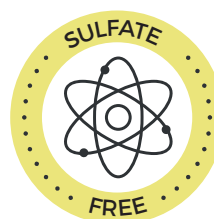

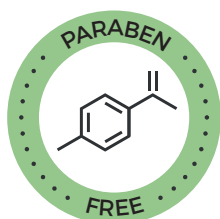

# HAIR CARE

## LACTODIOL TREATMENT SHAMPOO: ANTI-DANDRUFF

Bottle 400ml.

- ▶ With Octopirox® (nontoxic antidandruff active ingredient)
- ▶ Enriched with Nettle, Sunflower and Rosemary.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

With Piroctone Olamine, ideal for visible dandruff problems as well as prevention treatments. The stinging nettle extract stimulates blood circulation in the scalp.

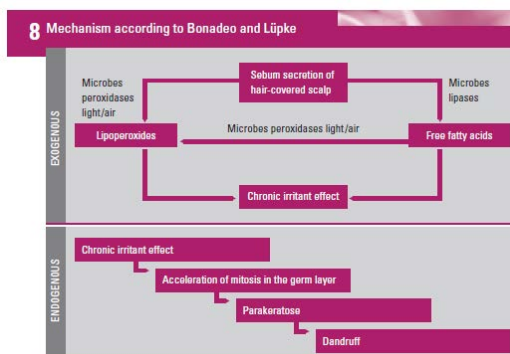

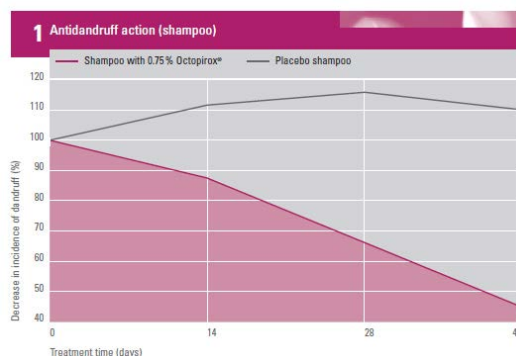

The effectiveness of antidandruff preparations containing Octopirox®, especially antidandruff shampoos, has been investigated and described in numerous studies. Their excellent efficacy has also been substantiated in various clinical trials.

According to Prof. Bonadeo (1975) and Prof. Lüpke (1979) the increased formation of dandruff can be explained by the mechanism shown in fig. 8. The action of Octopirox® within this mechanism is attributed both to its antimicrobial and its antioxidative action.

Octopirox® is also highly effective against malassezia species (formerly called *Pityrosporum ovale* or *orbiculare*), which are considered to be the main causes of dandruff.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, piroctone olamine, parfum, helianthus annuus seed oil, urtica dioica leaf extract, rosmarinus officinalis leaf extract, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, ci 19140, ci 42051, ci 42090

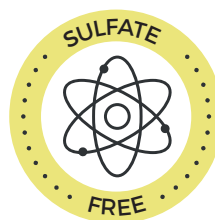

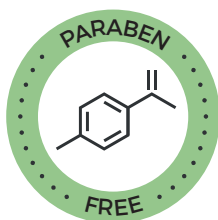

# HAIR CARE

## LACTODIOL TREATMENT SHAMPOO: DRY HAIR

Bottle 400ml.

- ▶ With Avocado Oil (rich in vitamins A, D & E and amino acids)
- ▶ Enriched with Citric Acid.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

With Avocado Oil (rich in vitamins A, D & E and amino acids), its nutritional effect is especially suitable for repairing dry hair.

Avocado oil has a number of nutrients that can benefit the growth and the health of all kinds of hair. It contains essential nutrients like proteins, vitamins A, D, E and B6, magnesium, copper, iron, amino acids and folic acid, all of which is extremely essential for hair growth and nourishment. It is also a rich source of Lecithin which gives it good penetrative qualities. It is also known to have natural sunscreen properties that can protect the hair and scalp from the damage caused by the harmful UVA and UVB rays of the sun.

Avocado oil is thin and light, making it easier for the oil to penetrate the hair and scalp. This moisturizes your skin from the inside, providing sufficient water for the hair to use during growth. If you have a dry and itchy scalp, then insufficient hydration might well be the problem and avocado oil can easily take care of this.

Avocado oil keeps their hair shiny and silky smooth. Typically used for brittle hair that seems to stick out everywhere, avocado oil has the ability to tame wild hair and allow it to fall back in glorious curls with every strand in place.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, persea gratissima oil, citric acid, tetrasodium edta, polyquaternium-7, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, methylisothiazolinone, sodium benzoate, ci 15985, ascorbyl palmitate, linalool, citronellol, butylphenyl methylpropional

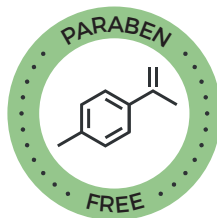

# HAIR CARE

## LACTODIOL TREATMENT SHAMPOO: ANTI-HAIRLOSS

Bottle 400ml.

- ▶ With Baicapil™ (stimulates hair growth and prevents hair loss)
- ▶ Enriched with Arginine
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

Its combination of plant extracts stimulates hair growth, increases capillary density, reduces hair loss and restores a healthy and strong look. Enriched with arginine (effective anti-hairloss).

Baicapil™ is a synergic combination of three plants that fights hair loss with visible effects:

- Hair growth stimulation.
- Increase of hair density.
- Hair loss reduction.
- Recovery of a younger and healthier look.

*Scutellaria baicalensis*:

Source of baicalin, the active molecule.

Protects against oxidative damage.

Activates stem cells.

Delays senescence.

*Soy and Wheat Sprouts*:

Increase cell proliferation.

Enhance the metabolic activity of the cells.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

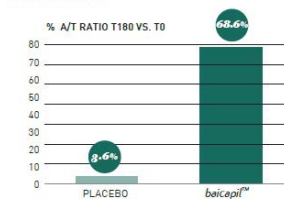

### In vivo efficacy

61 volunteers (men and women) with Mediterranean-caucasian hair, between 18 and 60 years old. Half of them applied a lotion with 3% of baicapil™ and the other half a lotion without active (placebo), during 6 months.

#### ● A/T ratio (anagen / telogen)

baicapil™ increases the A/T ratio, thus activating telogen follicles and extending the anagen phase.

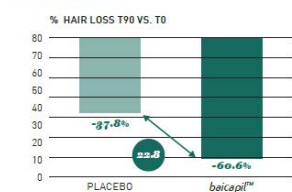

#### HAIR GROWTH

#### ● Hair loss

After 3 months of baicapil™ application, hair loss has been reduced by a 60.6%.

#### ANTI-HAIR LOSS

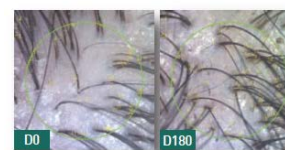

baicapil™ significantly improves the quantity and quality of hair, reducing its loss

#### ● Hair density

baicapil™ increases hair density up to 59.3%.

#### VOLUMISING EFFECT

baicapil™ visibly increases hair density and thickness

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphoacetate, disodium lauryl sulfosuccinate, parfum, arginine, glycine soja germ extract, triticum vulgare germ extract, gluconolactone, scutellaria baicalensis root extract, calcium gluconate, propanediol, citric acid, sodium benzoate, tetrasodium edta, polyquaternium-7, benzoic acid, lactic acid, magnesium nitrate, methylchlorisothiazolinone, magnesium chloride, methylisothiazolinone, alpha-isomethyl ionone, hexyl cinnamal

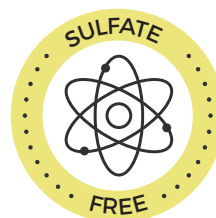

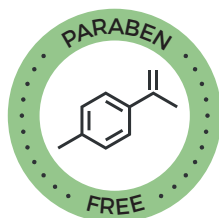

# HAIR CARE

## LACTODIOL TREATMENT SHAMPOO: OILY HAIR

Bottle 400ml.

- ▶ With Mentha Piperita (Peppermint) antiseptic and natural anti-inflammatory, very soothing to the scalp.
- ▶ Enriched with Lemon extract.
- ▶ Very soft/mild tensoactives and precise active principles.
- ▶ Each Lactodiol shampoo includes in its formula a conditioner that facilitates the hairdo.

With Mentha Piperita, excellent antiseptic with toning effect for the scalp. Offers volume and shine to lifeless hair thanks to extracts of lemon and mint.

The main active ingredient in Peppermint is Menthol, which is an organic compound that produces a cooling sensation when applied to the skin. It also acts as a mild anesthetic (which means a compound creating a reversible loss of sensation).

Peppermint also contains vitamins A and C as well as a number of minerals.

It can be used as a hair rinse to soothe both dry and oily scalp.

Lemon is indisputably one of the most commonly used fruits of the citrus family. This remarkable fruit has high contents of Vitamin C and also encloses Folic Acid, Vitamin B and minerals like phosphorus, magnesium and calcium within it.

### INSTRUCTIONS

1. Apply on wet hair.
2. Gently massage scalp, lather well and wait 2 minutes.
3. Rinse.
4. Repeat.

People with oil scalp possess active sebaceous glands that secrete oily liquid called as sebum. One of the best solutions for oily scalp is applying lemon extract in hair that will absorb the excess oil and simultaneously will not adversely affect the sebaceous glands unlike chemical remedies.

Also citric acid helps eliminating dandruff from the hair follicles.

**Formula:** aqua, disodium laureth sulfosuccinate, coco-glucoside, cocamide dea, sodium chloride, peg-150 distearate, glycerin, sodium cocoamphacetate, disodium lauryl sulfosuccinate, parfum, mentha piperita leaf extract, citrus limon fruit extract, citric acid, tetrasodium edta, polyquaternium-7, sodium benzoate, propylene glycol, benzoic acid, magnesium nitrate, methylchloroisothiazolinone, magnesium chloride, potassium sorbate, methylisothiazolinone, ci 19140, ci 42051

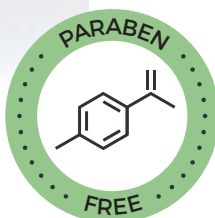

# HAIR CARE

## LACTODIOL NATURE HAIR MASK: ALOE VERA

Jar 300ml.  
Display 4 pcs.

- ▶ Intense moisturization, nourishes, revitalizes and fortifies the hair from the root.
- ▶ For normal hair, dry and very dry hair.
- ▶ Enriched with Panthenol (which restores hair's natural shine and volume).
- ▶ Enriched with Sweet Almond Oil (with emollient effect).

Aloe Vera has substances such as amino acids, vitamins and minerals that easily penetrate the scalp, opening pores to perform a deep cleaning and remove impurities from the surface (fat, excess dirt, dandruff or peeling).

In healthy hair Aloe Vera serves as a conditioner to penetrate the roots with ease, rejuvenating the hair by providing nutrients such as keratin. The hair at the end will look healthier, brighter, elastic and flexible.

Hydrolyzed keratin is a protein that acts by restructuring the hair and conditioning the hair fiber. It is very similar to liquid keratin treatment because it gives the hair a smooth and healthy appearance.

Because keratin is already present in the composition of our hair and that is lost over time, using a product that allows you to regenerate the outer layers of your hair is always a good option to recover the natural shine. Hydrolyzed keratin is a smoothing product that will give life to your hair as well as shine and mobility.

The process of reconstruction with keratin is of the highest quality. Reconstructs the hair fiber hydrating the hair and smoothing it.

### INSTRUCTIONS

Apply once a week. After washing your hair, rinse thoroughly and apply the Mask from hair root to hair end, wait 3 minutes and rinse thoroughly again. Use warm water, not too hot, in order to obtain more shine, softness and colour for your hair.

*Formula: aqua, cetyl alcohol, cetrimonium chloride, glycerin, aloe barbadensis leaf juice, hydrolyzed keratin, parfum, polyquaternium-10, polyquaternium-7, citric acid, phenoxyethanol, chlorphenesin, sodium benzoate, potassium sorbate.*

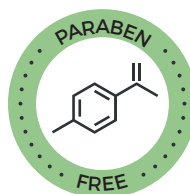

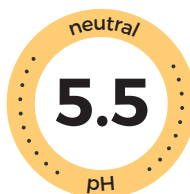

# BODY HYGIENE

## COCODERM DERMOPROTECTOR CREAM SOAP

Bottle 250ml or 750ml

- ▶ With fatty acid derivatives of the coconut and glycerin that confer to the product the suitable smoothness and protection for the daily hygiene.
- ▶ Emollient properties avoiding the dehydration and restoring the natural hidrolipidic mantle.
- ▶ Also indicated as a frequency shampoo with conditioning effect that facilitates the hairdo giving the hair a healthy look.

Coconut oil is a medium chain fatty acid. It has relatively small molecules that allow it to penetrate the skin. Coconut oil is rich in fatty acids such as capric acid, caprylic acid and lauric acid. The fatty acids have disinfectant and anti-microbial properties. Coconut oil is high in vitamin E, which is known for its skin healing properties. The triglycerides in coconut oil help to keep moisture from escaping from the skin, which aids in retaining softness and suppleness.

Cocamidopropyl betaine or CAPB is a chemical that is derived from processing coconut oil and dimethylaminopropylamine. It is regarded as a main ingredient in many personal skin care products because of it is a surfactant and has the ability to reduce irritation from ionic surfactants.

This chemical also has antiseptic properties making it suitable for sanitary products as well.

Even babies that have extra sensitive skin may use products that contain Cocamidopropyl betaine. In sanitary products such as feminine washes, cocamidopropyl betaine is also one of the main ingredients; this is because of its antiseptic properties. It can reduce odor and remove dirt as well.

Cocamidopropyl betaine is considered a safe, skin-friendly cleanser for both skin and hair that effectively removes surface oil, dirt and bacteria, without stripping or drying sensitive skin.

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

*Formula: aqua, sodium laureth sulfate, cocamidopropyl betaine, disodium chloride, glycerine, sodium lauryl sulfate, polyquaternium-22, hexilen glycol, styrene / acrylates copolymer, octoxynol -9, 2- bromo, 2- nitropropano-1, 3-diol, parfum, citric acid.*

# BODY HYGIENE

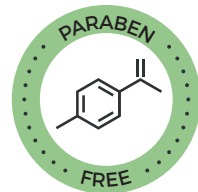

## DERMACLIN SOAP BAR: SULFUR

Soap bar 100gr.

- ▶ Made from Vegetable Oils, with high Sulfur content (5%).
- ▶ For use in the treatment of acne, blemishes, dilated or clogged pores, seborrheic dermatitis and dandruff.

NATURAL  
  
COSMETICS

Sulfur is naturally found abundantly in keratin, which is a protein that strengthens skin, hair and nails. Sulfur is sometimes known as "nature's beauty mineral" or "healing mineral" because it actively functions in the production of collagen, a protein that helps keep skin elastic and healthy. It also promotes circulation, decreases inflammation and stimulates the body's natural healing powers.

Sulfur soap is a type of body wash that has numerous health benefits. These benefits can range from treating skin disorders to simply cleaning your body efficiently.

**Acne Treatment:** one of the features of sulfur is that it causes the skin to dry out a bit and peel. When there is acne on your skin, your skin is more moist and oily than normal. Since sulfur dries the skin out, it will help decrease the inflammation of pimples and other blemishes on your skin. Sulfur can also help decrease the appearance of whiteheads on your skin by decreasing the oiliness and preventing pores from becoming blocked.

**Scabies Treatment:** scabies occurs when microscopic mites bury themselves under the skin. This causes itching, soreness and rashes. Sulfur is toxic and can kill these mites, which makes the use of sulfur soap an effective way to get rid of scabies.

**Seborrheic Dermatitis:** caused by fungus growing on your skin, which can make your skin greasy, red, flaky and scaly. This skin disease can occur in many places on your body, including your face, chest, armpits and hairline. Sulfur soap helps kill the fungus and remove it, which can help treat the seborrheic dermatitis.

**Rosacea:** a chronic skin condition that causes redness and blemishes or bumps on the cheeks, forehead, chin and nose. It can also occur on your scalp, chest, neck and ears. The redness becomes more persistent if this disorder is not treated and can become extremely uncomfortable. If left untreated for long periods of time, blood vessels, referred to as spider veins, may become visible. Sulfur soap, with its drying abilities, can help reduce the redness and clear up rosacea bumps that flare up on your skin.

### INSTRUCTIONS

Run warm water in the tub. Lather your whole body with the soap without scrubbing the skin too hard. Use a bath body sponge so it can exfoliate and cleanse your skin along with the warm water. Because excessive drying may occur, start with one application daily, then gradually increase to two or three times daily if needed or as directed by a physician. If bothersome dryness or peeling occurs, reduce application to once a day or every other day.

*Formula:* sodium palmate, sodium palm kernelate, aqua (water), sulfur, parfum (fragrance), palm kernel acid, sodium chloride, glycerin, titanium dioxide, tetrasodium edta, tetrasodium etidronate, citronellol, hexyl cinnamal, linalool, alpha-isomethyl ionone, butylphenylmethylpropional, coumarin.

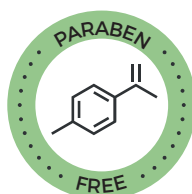

# BODY HYGIENE

## LACTOSEP ROLL-ON DEODORANT: ALOE VERA

Bottle 75ml.  
Display 16pcs.

- ▶ Mild deodorant emulsion, regulator of the excess of sweating.
- ▶ With Aloe Vera: moisturizing and tranquilizing properties.
- ▶ Substances with antiperspiration and antibacterial activity have been combined in its composition in order to limit the sudoral secretion and reduce the body odour.
- ▶ Lactosep deodorant may be used on sensitive skins and after depilation.

Aluminium chlorohydrate is a group of salts having the general formula  $\text{AlnCl}(3n-m)(\text{OH})m$ . It is used in deodorants and antiperspirants.

Aluminum chlorohydrate is one of the 18 wetness protection ingredients approved by the Food and Drug Association for use in over the counter underarm antiperspirant products. While the aluminum chlorohydrate reduces the amount of sweat on the skin surface, the ingredient also creates a skin environment which is hostile to the growth of malodor-producing bacteria to help reduce underarm odor as well.

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

Meadowfoam oil contains over 98% long-chain fatty acids, and also has higher quality triglyceride levels when compared to other vegetable oils. In addition, it has three long chain fatty acids that were previously unknown before its discovery. It also has amazing moisturizing and rejuvenating capabilities.

Triclosan acts as an antibacterial agent.

Shea butter is extracted from the nut of West Africa's wild karite tree. Its high content of essential fatty acids and natural anti-oxidant compounds provide extreme moisturizing capabilities as well as cellular restoration.

### INSTRUCTIONS

Take off the lid. Shake the roll-on deodorant bottle. Lift your arm above your head, and roll the ball against the skin of your underarm area. Shake the roll-on deodorant bottle again. Lift your other arm above your head, and roll the ball against your other underarm area. Allow the deodorant to dry before putting on clothing.

*Formula: aqua, aluminum chlorohydrate, ppg-15 stearyl ether, steareth-2, steareth-21, aloe barbadensis, isopropyl myristate, limnanthes alba ( meadowfoam ) seed oil, dimethicone, imidazolidinyl urea, parfum, triclosan, butyrospermum parkii ( shea butter ) extract*

## LACTOSEP ROLL-ON DEODORANT: CLASSIC

Bottle 75ml.  
Display 16pcs.

- ▶ Mild deodorant emulsion, regulator of the excess of sweating.
- ▶ With Cotton Flower and Rosa Moschata, with antirritating, tranquilizing and softening properties.
- ▶ Substances with antiperspiration and antibacterial activity have been combined in its composition in order to limit the sudoral secretion and reduce the body odour.
- ▶ Lactosep deodorant may be used on sensitive skins and after depilation.

Aluminium chlorohydrate is a group of salts having the general formula  $\text{AlnCl}(3n-m)(\text{OH})m$ . It is used in deodorants and antiperspirants.

Aluminum chlorohydrate is one of the 18 wetness protection ingredients approved by the Food and Drug Association for use in over the counter underarm antiperspirant products. While the aluminum chlorohydrate reduces the amount of sweat on the skin surface, the ingredient also creates a skin environment which is hostile to the growth of malodor-producing bacteria to help reduce underarm odor as well.

Cotton is not only a valuable source of vitamins but an excellent pain reliever. Gossypium, an active compound found in the cotton plant, has both analgesic and anti-inflammatory benefits.

Rosa Moschata restores the moisture level of naturally dry or dehydrated skin.

Meadowfoam oil contains over 98% long-chain fatty acids, and also has higher quality triglyceride levels when compared to other vegetable oils. In addition, it has three long chain fatty acids that were previously unknown before its discovery. It also has amazing moisturizing and rejuvenating capabilities.

Triclosan acts as an antibacterial agent.

Shea butter is extracted from the nut of West Africa's wild karite tree. Its high content of essential fatty acids and natural anti-oxidant compounds provide extreme moisturizing capabilities as well as cellular restoration.

## LACTOSEP ROLL-ON DEODORANT: DELICATE SKIN

Bottle 75ml.  
Display 16pcs.

- ▶ Mild deodorant emulsion, regulator of the excess of sweating.
- ▶ With Hamamelis and Chamomilla, with antirritating and soothing properties.
- ▶ Substances with antiperspiration and antibacterial activity have been combined in its composition in order to limit the sudoral secretion and reduce the body odour.
- ▶ Lactosep deodorant may be used on sensitive skins and after depilation.

Aluminium chlorohydrate is a group of salts having the general formula  $\text{AlnCl(3n-m)(OH)m}$ . It is used in deodorants and antiperspirants.

Aluminum chlorohydrate is one of the 18 wetness protection ingredients approved by the Food and Drug Association for use in over the counter underarm antiperspirant products. While the aluminum chlorohydrate reduces the amount of sweat on the skin surface, the ingredient also creates a skin environment which is hostile to the growth of malodor-producing bacteria to help reduce underarm odor as well.

Hamamelis virginiana has antibacterial and anti-inflammatory qualities. Enhances the appearance of dry or damaged skin and helps to reduce flaking and restores the suppleness of skin.

Matricaria, also known as chamomile, it improves tissue regeneration, reduces inflammation, and encourages the healing of wounds.

Meadowfoam oil contains over 98% long-chain fatty acids, and also has higher quality triglyceride levels when compared to other vegetable oils. In addition, it has three long chain fatty acids that were previously unknown before its discovery. It also has amazing moisturizing and rejuvenating capabilities.

## LACTOSEP ROLL-ON DEODORANT: NOURISHING

Bottle 75ml.  
Display 16pcs.

- ▶ Mild deodorant emulsion, regulator of the excess of sweating.
- ▶ With lactic proteins and oat.
- ▶ Substances with antiperspiration and antibacterial activity have been combined in its composition in order to limit the sudoral secretion and reduce the body odour.
- ▶ Lactosep deodorant may be used on sensitive skins and after depilation.

Aluminium chlorohydrate is a group of salts having the general formula  $\text{AlnCl}(3n-m)(\text{OH})m$ . It is used in deodorants and antiperspirants.

Aluminum chlorohydrate is one of the 18 wetness protection ingredients approved by the Food and Drug Association for use in over the counter underarm antiperspirant products. While the aluminum chlorohydrate reduces the amount of sweat on the skin surface, the ingredient also creates a skin environment which is hostile to the growth of malodor-producing bacteria to help reduce underarm odor as well.

Hydrolyzed Milk Protein is one of the most nutrient rich proteins due to its complete amino acid content. It has anti-irritant and protective properties unmatched by any other protein. With its readily available nutrients you'll see increased hydration and elasticity in skin. As with all proteins, it is restructuring and healing.

Lactose rebalances tired, stressed and sensitive skin. It lowers the stress level in the skin, protects it against environmental influences and stabilizes the immune system.

Avena sativa is packed full with a lot of healthy things--including calcium, starch, iron, alkaloid, flavonoids, B vitamins, saponins and amino acids such as methionine and lysine. Avena sativa is helpful for treating skin conditions and for maintaining healthy, hydrated skin. It can reduce dry skin and inflammation.

Triclosan acts as an antibacterial agent.

# BODY HYGIENE

## LACTOSEP DERMATOLOGICAL GEL

Bottle 250ml or 750ml

- ▶ Therapeutical substitute of soap.
- ▶ With a mild cleaning base, for all skin types (specially for dry and delicate skin).
- ▶ Adequate as well for the intimate hygiene and the children's bath.
- ▶ pH5,5 preserves and restores the protective hydrolipidic mantle.

### RECOMMENDATIONS:

- Delicate or extremely sensible skins that require daily care, preventing from eczemas and rashes.
- Skins with epidermic problems (its neutral pH respects the hydrolipidic balance).
- For the aseptic and continued skin hygiene of surgeons, nurses and sanitary personnel.
- In sport centers where as a result of a strong sweating and humid collective zones the skin is vulnerable to germs.
- Gynecologists due to its dermo-protector action and for the personal hygiene as prophylaxis for vaginal pathologies.
- Allergic skin conditions.

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

*Formula: aqua, sodium laureth sulphate, laneth-75, sodium chloride, cocamide dea, styrene/acrylates copolymer, sodium lauryl sulfate, octoxynol-9, cocamide mea, glycol distearate, parfum, citric acid, 2-bromo- 2-nitropropano-1,3-diol, citronellol, geraniol, cinnamyl alcohol, linalool, limonene, hydroxycitronellal.*

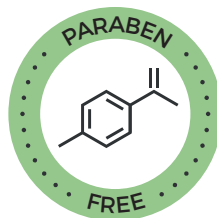

# BODY HYGIENE

## LACTOSEP INTIME HYGIENE

Bottle 300ml.  
Display 6pcs.

- ▶ For an efficient and mild hygiene.
- ▶ Its Lactic Acid contents help preserving skin's physiological pH, protecting your skin.
- ▶ The camomilla extract provides soothing and softening effects.
- ▶ With hydrolized wheat germ, natural source of Vit. E, with emolient effect.

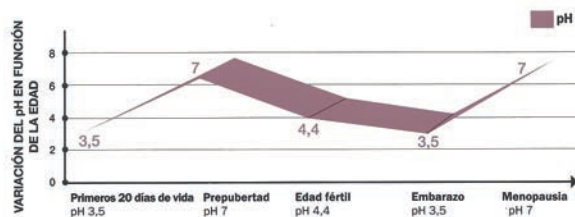

Lactic acid is a widely used alpha hydroxyl acid derived from sour milk that is far from a new phenomenon. In fact, Cleopatra is said to have bathed in soured milk to pamper her skin.

The molecules in lactic acid are larger than in the equally popular glycolic acid and although it doesn't penetrate into skin as deeply, its gentle exfoliating action makes it a perfect choice for regular use or those with extra sensitive skin. Lactic Acid is a treatment of infective skin and vaginal disorders and dermatological problems. It has a skin conditioning effect to dry and sensitive skin.

Lactic acid accelerates the sloughing process. As we age, our skin's ability to shed dead skin cells is diminished, increasing the need for specialized exfoliating products. Although less powerful than retinol-the popular Vitamin A molecule used in skin care treatments and peels-lactic acid has been heralded by many dermatologists and embraced by the cosmetics industry. Lactic acid has shown to be a superior exfoliate-peeling away the outer layers of dead skin, and revealing a healthier glow. This peeling effect causes damaged layers of skin to shed more rapidly, improving the texture of the skin- making it softer and smoother while preventing build-up of skin cells in the pores.

Keeping skin at acid pH level, lactic acid works to limit the growth of bacteria and spur the development of new cells. It works well on conditions as diverse as acne and wrinkles, as its exfoliate properties serve to eliminate dead cells regardless of their cause.

EL pH VAGINAL VA CAMBIANDO EN LAS DIFERENTES ETAPAS Y MOMENTOS EN LA MUJER

Matricaria, also known as chamomile, it improves tissue regeneration, reduces inflammation, and encourages the healing of wounds.

Hydrolyzed Wheat Protein is a protein from wheat which has been turned partly into water through hydrolysis. Proteins are the nitrogen carrying constituents of living cells and protein treatments are said to be beneficial to hair and skin. It has excellent skin compatibility and deposits a protective film on the skin. The film is smoothing and moisturising.

### INSTRUCTIONS

Apply to the intimate area. Rinse thoroughly.

*Formula: aqua, sodium laureth sulfate, cocamidopropyl betaine, polysorbate-20, sodium cocoamphoacetate, lactic acid, chamomilla recutita (matricaria) extract, hydrolyzed wheat protein, phenoxyethanol, propylene glycol, peg-55 propylene glycol oleate, peg-7 glyceryl cocoate, sodium chloride, benzoic acid, parfum, dehydroacetic acid.*

## MAXLOOK SHOWER GEL: ALOE VERA

Bottle 100ml  
(travel size)

Bottle 250ml or 750ml

- ▶ For the daily hygiene, soft and efficient, of your body, moisturizing deeply your skin.
- ▶ With a gentle formula to leave the skin feeling unbelievably soft and smooth and may benefit dry skin conditions.

Aloe Vera contains over 75 known active ingredients (and probably many more). Also included are 19 of the 20 amino acids required by the human body and 7 of the 8 essential amino acids (that the body cannot make), as well as vitamins and minerals.

Aloe Vera contains also contain useful enzymes beneficial to human metabolism. Aloe Vera contains important minerals like Calcium, Chromium, Copper, Iron, Magnesium, Manganese, Potassium, Phosphorous, Sodium, and Zinc.

Aloe Vera contains useful vitamins. These include A (beta-carotene and retinol), B1 (thiamine), B2 (riboflavin), B3 (niacin), B6 (pyridoxine), B12 (cyanocobalamin), C (ascorbic acid), E (tocopherol) and Folic Acid.

Salicylic Acid, a substance similar to aspirin that can help reduce fever and inflammation is also found in Aloe vera. It also contains Saponins and Sterols. Saponins are natural soapy substances that have both cleansing and antiseptic properties while Sterols are naturally occurring plant steroids with analgesic, anti-inflammatory, and antiseptic properties.

Other health benefits from the use of aloe vera include helping to soothe skin injuries affected by burning, skin irritations, cuts and insect bites, and its bactericidal properties relieve itching and skin swellings.

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

*Formula: aqua, sodium laureth sulfate, sodium chloride, cocamide dea, cocamidopropyl betaine, glycerin, parfum, citric acid, aloe barbadensis leaf juice, methylchloroisothiazolinone, methylisothiazolinone, magnesium nitrate, magnesium chloride, potassium sorbate, sodium benzoate, ci 19140, ci 42051*

## MAXLOOK SHOWER GEL: ARGAN OIL

Bottle 250ml or 750ml

- ▶ Transport your senses with the shower gel with Argan Oil from Morocco.
- ▶ Combines moisturizing properties and pampering pleasure!
- ▶ Its gel texture is truly a beneficial treatment for your skin, while its cleansing base is so gentle.
- ▶ Every day, treat your skin to the fragrant freshness of this shower gel with Argan Oil from Morocco!

{ 1 }

All-over body moisturizer

{ 2 }

Massage oil

{ 3 }

Hand and cuticle treatment

{ 4 }

Nourishing treatment for dry or irritated skin

{ 5 }

Stretch mark treatment

{ 6 }

Nourishing treatment for sunburned skin

{ 7 }

Face treatment to improve skin tone and texture

{ 8 }

Skin/face brightener

{ 9 }

Split end treatment

{ 10 }

Hair conditioner for dry or damaged hair

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

*Formula: aqua, sodium laureth sulfate, sodium chloride, cocamide dea, cocamidopropyl betaine, argania spinosa kernel oil, parfum, citric acid, glycerin, magnesium chloride, magnesium nitrate, methylisothiazolinone, methylchlorisothiazolinone, linalool, CI 15985*

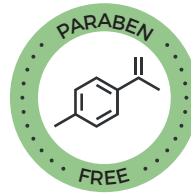

# BODY HYGIENE

## MAXLOOK SHOWER GEL: COCONUT

Bottle 250ml or 750ml

- ▶ With fatty acid derivatives of the coconut and glycerin that confer to the product the suitable smoothness and protection for the daily hygiene.
- ▶ Emollient properties avoiding the dehydration and restoring the natural hidrolipidic mantle.
- ▶ Also indicated as a frequency shampoo with conditioning effect that facilitates the hairdo giving the hair a healthy look.

Coconut oil is a medium chain fatty acid. It has relatively small molecules that allow it to penetrate the skin. Coconut oil is rich in fatty acids such as capric acid, caprylic acid and lauric acid. The fatty acids have disinfectant and anti-microbial properties. Coconut oil is high in vitamin E, which is known for its skin healing properties. The triglycerides in coconut oil help to keep moisture from escaping from the skin, which aids in retaining softness and suppleness.

Cocamidopropyl betaine or CAPB is a chemical that is derived from processing coconut oil and dimethylaminopropylamine. It is regarded as a main ingredient in many personal skin care products because of it is a surfactant and has the ability to reduce irritation from ionic surfactants.

This chemical also has antiseptic properties making it suitable for sanitary products as well.

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

Even babies that have extra sensitive skin may use products that contain Cocamidopropyl betaine. In sanitary products such as feminine washes, cocamidopropyl betaine is also one of the main ingredients; this is because of its antiseptic properties. It can reduce odor and remove dirt as well.

Cocamidopropyl betaine is considered a safe, skin-friendly cleanser for both skin and hair that effectively removes surface oil, dirt and bacteria, without stripping or drying sensitive skin.

*Formula: aqua, sodium laureth sulfate, sodium chloride, cocamide dea, cocamidopropyl betaine, parfum, styrene/acrylates copolymer, coco-glucoside, citric acid, methylchloroisothiazolinone, methylisothiazolinone, coumarin.*

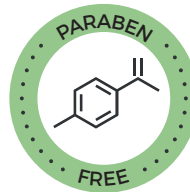

# BODY HYGIENE

## MAXLOOK SHOWER GEL: EUCALYPTUS

Bottle 250ml or 750ml

- ▶ Ideal for daily hygiene.
- ▶ Eucalyptus is an uplifting, energizing scent. Smell good, feel better, get clean!
- ▶ The natural fragrance from the Eucalyptus Essential Oil provides an aromatherapeutical effect.
- ▶ Analgesic, antiseptic and expectorating properties.

The therapeutic properties of eucalyptus oil are analgesic, anti-bacterial, anti-inflammatory, anti-neuralgic, anti-rheumatic, antiseptic, antispasmodic, antiviral, astringent, balsamic, cicatrisant, decongestant, deodorant, depurative, diuretic, expectorant, febrifuge, hypoglycaemic, rubefacient, stimulant, vermifuge and vulnerary.

Eucalyptus oil has a cooling and deodorizing effect on the body. For the respiratory tract, it helps with coughs, asthma, throat infections, sinusitis and catarrhal conditions. It soothes inflammation and eases mucus, clearing the head from the stuffiness of colds and hay fever.

Eucalyptus oil is useful as a warming oil when used for muscular aches and pains, rheumatoid arthritis, sprains and poor circulation.

### INSTRUCTIONS

Apply to wet skin, then lather and rinse.

*Formula: aqua, sodium laureth sulfate, sodium chloride, cocamide dea, cocamidopropyl betaine, eucalyptus globulus leaf oil, citric acid, glycerin, magnesium chloride, magnesium nitrate, methylisothiazolinone, methylchloroisothiazolinone, limonene, CI 19140, CI 42051*

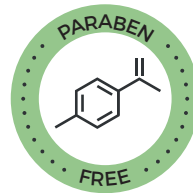

# BODY HYGIENE

## NAILINE LIQUID HAND SOAP: ALOE VERA

Bottle 300ml.  
Display 6 pcs.

- ▶ For the hygiene and basic skin care (body and hands).
- ▶ Soft and efficient hygiene.
- ▶ Anti-inflammatory effect, regenerates and reconstructs.

Aloe Vera contains over 75 known active ingredients (and probably many more). Also included are 19 of the 20 amino acids required by the human body and 7 of the 8 essential amino acids (that the body cannot make), as well as vitamins and minerals.

Aloe Vera contains also contain useful enzymes beneficial to human metabolism. Aloe Vera contains important minerals like Calcium, Chromium, Copper, Iron, Magnesium, Manganese, Potassium, Phosphorous, Sodium, and Zinc.

Aloe Vera contains useful vitamins. These include A (beta-carotene and retinol), B1 (thiamine), B2 (riboflavin), B3 (niacin), B6 (pyridoxine), B12 (cyanocobalamin), C (ascorbic acid), E (tocopherol) and Folic Acid.

Salicylic Acid, a substance similar to aspirin that can help reduce fever and inflammation is also found in Aloe vera. It also contains Saponins and Sterols. Saponins are natural soapy substances that have both cleansing and antiseptic properties while Sterols are naturally occurring plant steroids with analgesic, anti-inflammatory, and antiseptic properties.

Aloe Vera possesses incredible moisturizing properties. Studies show that Aloe Vera improves the skin's ability to hydrate itself, aids in the removal of dead skin cells and has an effective penetrating ability that helps transport healthy substances through the skin.

Glycerin is what is called a humectant, meaning that it attracts water. When glycerin or glycerol is applied to the skin, it seals in moisture that might otherwise escape.

In addition to keeping the moisture level of the skin on track, the cosmetic effect of glycerin on skin is that the skin looks healthier and more attractive with the use of glycerin. The improved appearance of skin is due in part to the fact that the skin is hydrated and does not have the characteristic scaly look of dry skin. Glycerin is an emollient, making skin not only moist, but soft and supple to the touch.

Alginic acid is a polysaccharide gained from brown algae and consists of mannuronic and guluronic acid units. It is used as a consistency agent and forms a moisture-retaining film on the skin surface.

### INSTRUCTIONS

Apply to wet skin, rub gently for a few seconds and rinse.

*Formula: aqua, sodium laureth sulfate, cocamide dea, aloe barbadensis gel, polyquaternium-7, cocamidopropyl betaine, peg-7 glyceryl cocoate, sodium chloride, parfum, methylchloroisothiazolinone, methylisothiazolinone, citric acid, C.I. 19140, C.I. 42090, limonene.*

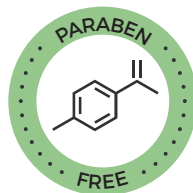

# BODY HYGIENE

## NAILINE LIQUID HAND SOAP: GLYCERIN

Bottle 300ml.  
Display 6 pcs.

- ▶ For skin's basic care and hygiene.
- ▶ Soft and efficient hygiene.
- ▶ Emollient and moisturizing effects.

The effects of glycerin on skin are a healthier, more natural-looking appearance.

Glycerin is what is called a humectant, meaning that it attracts water. When glycerin or glycerol is applied to the skin, it seals in moisture that might otherwise escape.

In addition to keeping the moisture level of the skin on track, the cosmetic effect of glycerin on skin is that the skin looks healthier and more attractive with the use of glycerin. The improved appearance of skin is due in part to the fact that the skin is hydrated and does not have the characteristic scaly look of dry skin.

Glycerin is an emollient, making skin not only moist, but soft and supple to the touch.

Alginic acid is a polysaccharide gained from brown algae and consists of mannuronic and guluronic acid units. It is used as a consistency agent and forms a moisture-retaining film on the skin surface.

Glycerin shores up the skin's natural protection by filling in the area known as the intercellular matrix and by attracting just the right amount of water to maintain the skin's homeostasis. There is also research indicating that the presence of glycerin in the intercellular layer helps other skin lipids do their jobs better

*(Sources: American Journal of Contact Dermatitis, September 2000, pages 165–169; and Acta Dermato-Venereologica, November 1999, pages 418–421). See intercellular matrix and natural moisturizing factors.*

## NAILINE SHOWER GEL: SOY+OAT

Bottle 250ml or 750ml

- ▶ For the daily hygiene, soft and efficient, of your body.
- ▶ Moisturizes, nourishes, softens and protects your skin.
- ▶ For all skin types.

Recent research has shown that soy has a beneficial effect on skin through its antioxidant and anti-inflammatory effects. The components in soy responsible for these effects are isoflavones, a class of plant compounds abundant in soybeans. In the skin, isoflavones have been shown to work in two important ways:

**Stimulate collagen:** which helps to increase the skin's supporting structure, thereby increasing its thickness and elasticity

**Inhibit matrix metallo-proteinases:** enzymes that break down the network of protein that make up the skin's support layer.

The elastase inhibitor Glycine Soja Protein helps the skin to defend against the symptoms of accelerated aging. It is highly effective in inhibiting elastase released to the skin surface after skin irritation caused by UV-exposure or environmental stress as well as under dry skin conditions. Second, it acts as an extremely efficient moisturizer. Glycine Soja thus exhibits both protective and preventive activity.

In the skin oat beta glucan helps with infection control and collagen stimulation. It stimulates fibroblasts and production of pro-collagen as well as the healing process. Treatment of burns is one area where oat beta glucans have been safely used for many years.

Hydration of the skin is improved by oat beta glucan. Whilst most isolated glucans are aggregates of a micron size or greater, Ceapro oat beta glucan is sub-micron sized, allowing it to penetrate well into the epidermis and even the dermis.

In the anti-ageing field, anti-wrinkle effects from topical application of oat beta glucan have been demonstrated.

Oats have been used to treat irritated skin for centuries. Avenanthramides in oats have been shown to be the main group of active polyphenol antioxidants responsible for their anti-inflammatory, anti-erythema (anti-redness), anti-pruritic (anti-itch) and anti-histamine properties.

### INSTRUCTIONS

## NAILINE GLYCERIN SOAP BAR: ARGAN OIL

Soap bar 125gr.

- ▶ Effective moisturiser. With soothing effect.
- ▶ High vitamin E and fatty acid content.
- ▶ Excellent for repairing damaged skin.

Often called 'liquid gold', argan oil is an organic product extracted from the kernels of the argan tree, which is native to Morocco. It is extremely rich in beneficial nutrients including fatty acids and vitamin E. Its properties make it particularly beneficial for the hair and skin

The triterpenoids naturally found in Argan oil offer amazing health benefits for skin including the ability to stunt the growth of warts, treat some forms of dermatitis, break down tumorous skin cells, and fade scars. Also, the antioxidants and fatty acids found in Argan oil may also help with the treatment of mild acne and with the healing of acne-related scarring.

Argan oil is comprised of roughly 80% fatty acids which work wonders to erase signs of premature aging. Regular use of Argan oil has been proven to reduce the depth and severity of wrinkles, as well as to fade age spots by restoring skin's youthful elasticity and by increasing the regenerative rate of healthy skin cells.

Anti-oxidants in Argan oil help to protect skin, hair, and nails from damage caused by UV radiation. Applying Argan oil to UV damaged skin can actually fade sun spots and heal the dry leathery skin that results from over-exposure to UV by promoting the regeneration of healthy cells.

### INSTRUCTIONS

Run warm water in the tub. Lather your whole body with the soap without scrubbing the skin too hard. Use a bath body sponge so it can exfoliate, cleanse and moisturize your skin along with the warm water.

*Formula: cocos nucifera, aqua, dipropylene glycol, sodium hidroxide, sucrose, stearic acid, sodium chloride, lauric acid, glycerin, parfum, argania spinosa kernel oil, pentasodium pentetate. c.i.19140, c.i. 17200, c.i. 61570, amyil cinnamal, butyl phenyl methyl propional, benzyl benzoate, citral, geraniol.*

## NAILINE GLYCERIN SOAP BAR: COCONUT

Soap bar 125gr.  
Display 18 pcs. (combined)

- ▶ Its high content of coconut oil nurtures, moisturizes and softens the skin.
- ▶ Its mild perfume does not interfere with your chosen fragrance.

natural  
  
cosmetics

Coconut oil is a medium chain fatty acid. It has relatively small molecules that allow it to penetrate the skin. Coconut oil is rich in fatty acids such as capric acid, caprylic acid and lauric acid. The fatty acids have disinfectant and anti-microbial properties. Coconut oil is high in vitamin E, which is known for its skin healing properties. The triglycerides in coconut oil help to keep moisture from escaping from the skin, which aids in retaining softness and suppleness.

Coconut oil forms a protective barrier to hold in moisture also penetrates into the deeper layers of the skin to helping to keep connective tissues strong and supple. Coconut oil is readily absorbed into the skin, helping to reduce the appearance of fine lines and wrinkles. It aids in exfoliating the outer layer of dead skin cells, making the skin smoother.

Coconut oil acts as an effective moisturizer on all types of skins including dry skin. The benefit of coconut oil on the skin is comparable to that of mineral oil. Further, unlike mineral oil, there is no chance of having any adverse side effects on the skin with the application of coconut oil.

Coconut oil therefore is a safe solution for preventing dryness and flaking of skin. It also delays wrinkles, and sagging of skin which normally become prominent with age. Coconut oil also helps in treating various skin problems including psoriasis, dermatitis, eczema and other skin infections. Coconut oil also helps in preventing premature aging and degenerative diseases due to its antioxidant properties.

### INSTRUCTIONS

Run warm water in the tub. Lather your whole body with the soap without scrubbing the skin too hard. Use a bath body sponge so it can exfoliate, cleanse and moisturize your skin along with the warm water.

*Formula: cocos nucifera, dipropylene glycol, sodium hidroxide, aqua, stearic acid, styrene-acrylates copolymer, sodium chloride, lauric acid, glycerin, parfum, pentasodium pentetate, coumarin.*

## NAILINE GLYCERIN SOAP BAR: OAT

Soap bar 125gr.  
Display 18 pcs. (combined)

- ▶ Moisturizes, protects and softens your skin.
- ▶ Ideal for sensitive, dry and delicate skins.
- ▶ Restores skin's natural pH.

natural  
cosmetics

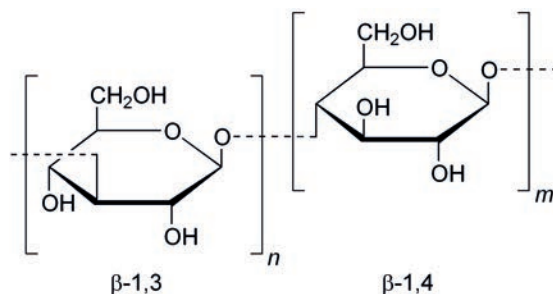

In the skin oat beta glucan helps with infection control and collagen stimulation. It stimulates fibroblasts and production of pro-collagen as well as the healing process. Treatment of burns is one area where oat beta glucans have been safely used for many years.

Hydration of the skin is improved by oat beta glucan. Whilst most isolated glucans are aggregates of a micron size or greater, Ceapro oat beta glucan is sub-micron sized, allowing it to penetrate well into the epidermis and even the dermis.

In the anti-ageing field, anti-wrinkle effects from topical application of oat beta glucan have been demonstrated. One study investigated skin penetration and anti-ageing effects of oat beta glucan. A half-face design, anti-wrinkle study used 27 subjects with 0.1% topical beta-glucan, or a placebo, applied twice a day for eight weeks. By the end of the study the digital analysis of silicone replicas of the beta-glucan treated areas showed significantly reduced roughness and wrinkling (of up to 15%) versus the placebo. Skin firmness was also increased.

Oats have been used to treat irritated skin for centuries. Avenanthramides in oats have been shown to be the main group of active polyphenol antioxidants responsible for their anti-inflammatory, anti-erythema (anti-redness), anti-pruritic (anti-itch) and anti-histamine properties.

### INSTRUCTIONS

Run warm water in the tub. Lather your whole body with the soap without scrubbing the skin too hard. Use a bath body sponge so it can exfoliate, cleanse and moisturize your skin along with the warm water.

*Formula: cocos nucifera, aqua, avena sativa, dipropylene glycol, sodium hidroxide, sucrose, stearic acid, sodium chloride, lauric acid, glycerin, parfum, pentasodium pentetate, c.i.19140, benzyl benzoate, citral, geraniol.*

## DERMACLIN HAND SANITIZER GEL

- ▶ There are two main types of hand sanitizers: alcohol-based and alcohol-free. Alcohol-based hand sanitizers contain varying amounts and types of alcohol, often between 60% and 95% and usually isopropyl alcohol, ethanol (ethyl alcohol) or n-propanol. Alcohol is known to be able to kill most germs. Alcohol attacks and destroys the envelope protein that surrounds some viruses, including coronaviruses. This protein is vital for a virus's survival and multiplication. But a hand sanitizer needs to be at least 60% alcohol in order to kill most viruses. Hand sanitizers with less than 60% alcohol were also found to be less effective at killing bacteria and fungi and may only reduce the growth of germs rather than killing them outright.
- ▶ Dermaclin Hand Sanitizer Gel contains 70% of alcohol.

Washing hands often with soap and water for at least 20 seconds is essential, especially after going to the bathroom; before eating; and after coughing, sneezing, or blowing one's nose. If soap and water are not readily available, the Centers for Disease Control and Prevention (CDC) recommends consumers use an alcohol-based hand sanitizer **that contains at least 60 percent alcohol** (also referred to as ethanol or ethyl alcohol)

SOURCE: Temporary Policy for Preparation of Certain Alcohol-Based Hand Sanitizer Products During the Public Health Emergency (COVID-19) Guidance for Industry

U.S. Department of Health and Human Services Food and Drug Administration Center for Drug Evaluation and Research (CDER)  
March 2020 - Updated March 27, 2020 - Pharmaceutical Quality/Manufacturing Standards (CGMP)/Over-the-Counter (OTC)

### WARNING:

For external use only, on healthy skin. In case of contact with eyes, rinse immediately with plenty of water. In case of irritation, discontinue use of the product. If the product is swallowed, see your doctor and show him the container. Flammable, do not approach the fire. Keep away from children.

### INSTRUCTIONS

Place enough product in your palm to thoroughly cover your hands. Rub hands together briskly until dry. Should take approximately 15 seconds.

**Formula:** Alcohol Denat., Aqua, Hydroxypropylcellulose, Glycerin, Ethylhexylglycerin, Parfum, Aloe Barbadensis Leaf Juice, Potassium Sorbate, Sodium Benzoate, Citric Acid, Chlorhexidine Digluconate, Benzyl Alcohol, Benzyl Salicylate, Butylphenyl Methylpropional, Cinnamyl Alcohol, Citronellol, Geraniol, Hydroxycitronellal, Linalool.

# SKIN CARE

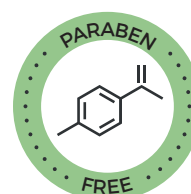

## NAILINE ACTIVE CHARCOAL MASK

*Bottle 100ml.  
Display 10 pcs.*

- ▶ Cleansing.
- ▶ Purifying.
- ▶ Peels blackheads.
- ▶ Removes dirt.

### PEEL-OFF MASK

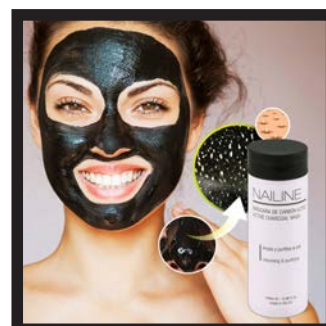

Peel-off mask specially-formulated to unblock clogged pores by peeling blackheads and removing dirt. Activated charcoal helps drawing out the most deeply-rooted impurities.

The charcoal used for skin care is what's known as activated charcoal (it has been treated to increase its absorbency).

Activated charcoal can be used just by spreading it on your skin. The charcoal first draws bacteria, toxins, chemicals, dirt, oil, and other micro-particles to the surface of the skin. It then absorbs those foreign substances and carries them away when you rinse the charcoal off your face.

The mask also removes blackheads and exfoliate your skin thanks to the active ingredients.

Mask helps flush out environmental toxins, dirt, and debris that can clog pores and cause skin to look dull—leaving the complexion clarified, refreshed, and healthier-looking.

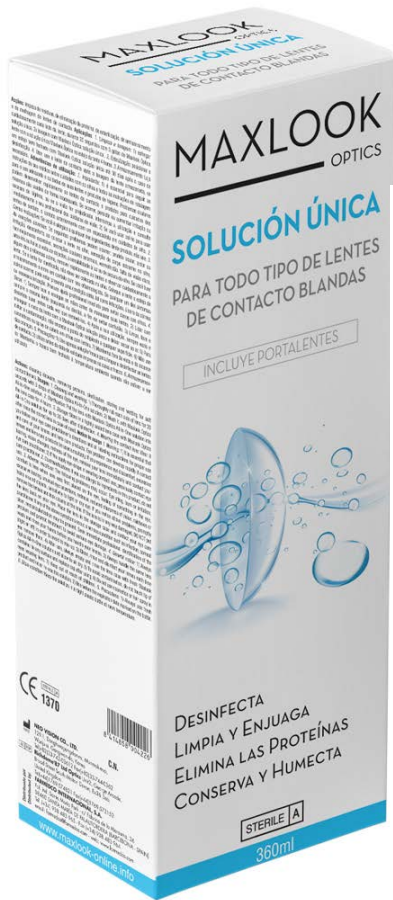

### INSTRUCTIONS

1. Cleanse your face and dap it with a hot towel leaving it damp.
2. Apply a medium layer on the desired area (warning: avoid sensitive areas such as eyebrows, facial hair, lips and eye contour)
3. Leave mask on skin about 20 minutes, or until dry.
4. Gently start peeling from the bottom to the top of your face and rinse with water if necessary.

*Formula: aqua (water), polyvinyl alcohol, alcohol denat., carbon black, diazolidinyl urea, sodium benzoate, potassium sorbate, parfum.*

# EYE CARE

## MAXLOOK OPTICS: MULTI-PURPOSE CONTACT LENS SOLUTION

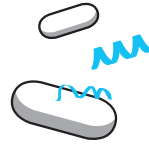

360ml + contact lens case

STERILE A

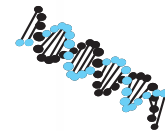

60ml

**ACTION 1**  
Disinfects  
(polyhexamide)

**ACTION 2**  
Cleans & rinses  
(poloxamer 407)

**ACTION 3**  
Removes proteins  
(poloxamer 407 EDTA)

**ACTION 4**  
Stores & moisturizes  
(potassium chloride,  
boric acid buffer)

### ACTIONS

Cleaning deposits, removing proteins, sterilization, storing and wetting for soft contact lenses.

### INSTRUCTIONS

#### 1. Cleaning and washing:

- 1) Thoroughly rub each side of lens for 20 seconds with 3 drops of Maxlook Optics All-In-One solution.
- 2) Wash it with Maxlook Optics All-In-One solution.

#### 2. Sterilization: Put the lens with Maxlook Optics All-In-One solution into the lens case for 4 hours.

#### 3. Storage: Store in a tightly sealed lens case with Maxlook Optics All-In-One solution for up to 30 days after disinfection.

#### 4. Wearing the contact lens: Wear it after rinse the stored lens in case of need.

**Formula:** sodium chloride, boric acid, sodium borate, potassium chloride, edetate disodium 0.02%, poloxamer 407, 20% polyhexamethylene biguanide hydrochloride 0.0005% in sterilized water

# EYE CARE

## MAXLOOK OPTICS: MULTI-PURPOSE CONTACT LENS SOLUTION WITH SODIUM HYALURONATE

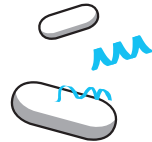

360ml + contact lens case

STERILE A

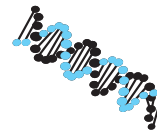

**ACTION 1**  
Moisturizes & Stores

**ACTION 2**  
Disinfects

**ACTION 3**  
Cleans & rinses

**ACTION 4**  
Removes proteins

### ACTIONS

Moisturizing & Storing, Cleaning deposits, removing proteins and sterilization for soft contact lenses.

Thanks to the sodium hyaluronate, its formulation has a unique balance offering both an effective antibacterial action, superior comfort and long lasting hydration.

### INSTRUCTIONS

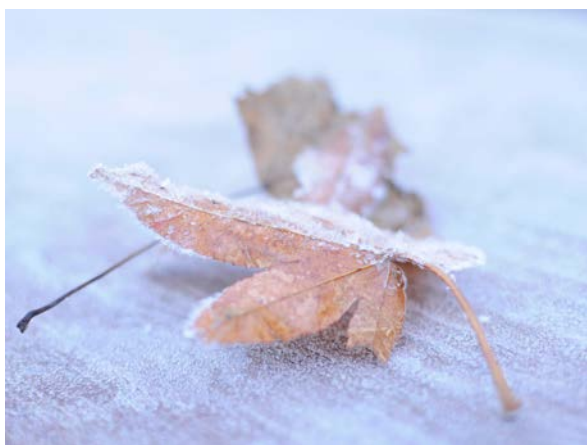

Wash your hands carefully before using the product. Remove lenses and place them in the palm of the hand. Add enough Maxlook Optics All-In-One Solution with Sodium Hyaluronate to completely wet the lenses. Gently rub the lenses with your fingers for a few seconds. In order to completely remove all deposits rinse the lenses thoroughly with Maxlook Optics All-In-One Solution with Sodium Hyaluronate. Repeat the process for the other lens. Fill the lens case with Maxlook Optics All-In-One Solution with Sodium Hyaluronate. Carefully close the lens case, leaving the lenses immersed in the solution for at least 4 hours or overnight. Before placing the lenses into the eye rinse them with Maxlook Optics All-In-One Solution with Sodium Hyaluronate.

*Formula: EDTA 0.01%, PolyHexaMethyleneBiguanide 0.00015%, Hydroxyethylcellulose, Hyaluronic acid macromolecular*

## MAXLOOK NAIL POLISH: AUTUMN/WINTER

Bottle 12ml.  
Display 24pcs. (combined colors)

- ▶ Trendy colors.
- ▶ Long lasting nail polish.
- ▶ Bright neon color, smooth finish.
- ▶ The formula is ultra flexible and long wearing with superior shock absorption and chip resistance.
- ▶ Quick-dry

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

Advanced Oxygen technology achieves a non-occlusive film more permeable to oxygen and reduces water penetration in the film and the nail plate.

Expert Gel III technology: achieves the highest pigment and pearl suspension quality and long term low viscosity stability.

Superior make-up results, increased gloss, fantastic fluidity upon application, and impeccable shelf-life.

Developed with patented structuring microparticles to reinforce physical and mechanical performance of the film, improving gloss and resistance.

Finest grade of nitrocelluloses selected for limited yellowing.

High solids for superior coating quality and to leverage pay-off, gloss and wear performance.

Contains Benzophenone 1, a UV filter to prevent discoloration and yellowing.

5 colors

3 top coats: glitter, matte and plumping

*Formula: buthyl acetate, ethyl acetate, nitrocellulose, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, acetyl tributyl citrate, isopropyl alcohol, stearylalkonium bentonite, sucrose acetate isobutyrate, acrylates copolymer, n-butyl alcohol, styrene / acrylates copolymer, benzophenone-1, silica, dimethicone, trimethylsiloxysilicate, water, alcohol denat., trimethylpentanediyl dibenzoate, triticum vulgare germ oil, tocopheryl acetate, glyceryl linoleate (and) glyceryl linolenate, polyvinyl butyral, alumina, retinyl palmitate, isomalt, phospholipids, rhododendron ferrugineum leaf cell culture extract (dry), trisodium phosphate, lactic acid [+/- ci's]*

- ▶ Trendy colors.
- ▶ Long lasting nail polish.
- ▶ Intense color, smooth finish.
- ▶ The formula is ultra flexible and long wearing with superior shock absorption and chip resistance.
- ▶ Quick-dry

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

### INSTRUCTIONS

1. Make sure to wipe away all traces of old nail polish with a cotton ball or pad soaked in nail polish remover (for best results we recommend using of Nailine's Mild or Extramild Nail Polish Remover) before applying a fresh coat of color. Even if the only product you have on your nails is clear polish, this will prevent your colored nail polish from going on evenly if it is old and chipped.
2. Lay down a clear base coat (for best results we recommend using of Nailine's Restoring Foundation) on your nails once they are clean and dry. A base coat will help your colored nail polish go on smoothly and evenly.
3. Roll your bottle of colored nail polish in between your hands to mix the polish thoroughly. Do not shake the bottle, as this will create air bubbles that will affect the quality of the polish. Unscrew the bottle of polish, wiping the excess product on the brush off on the opening of the bottle so that it trickles back inside. Swipe a stripe of polish down the middle of your nail from cuticle to tip before following it with color on either side. This guarantees that your nails have more polish in the center rather than on the sides, where the product can pool and roll off of your nails onto your skin. Begin your nail polish application with your smallest finger, saving your thumb for last instead of following the reverse order. This lessens the odds of you accidentally leaning on or rubbing polish off of a wet nail. For a manicure, prop both hands on a table or countertop if you have unsteady hands; for a pedicure, rest your hand on the floor by your foot instead of hovering over it.
4. Repeat Step 3 to give your nails a second coat of polish. This will even out your application so that any areas that appear to be needing more polish are covered up.
5. Allow your nails to dry, or at least let a half hour go by before applying a protective clear top coat (for best results we recommend using of Nailine's Top Cat) on all your nails. Aside from making your nail polish last longer, a clear top coat also helps the colored polish settle smoothly on your nails. Any mild grooves or unevenness in application will disappear once the top coat spreads over your nail. Once your nails have dried completely, clean up any messes by tightly wrapping a piece of cotton around the tip of an orange stick. Dip the cotton-covered tip in nail polish remover (for best results we recommend using of Nailine's Mild or Extramild Nail Polish Remover) and go over any spots of nail polish on your skin for nails that appear to be flawlessly polished.

*Formula: butyl acetate, ethyl acetate, nitrocellulose, adipic acid / neopentyl glycol / trimellitic anhydride copolymer, acetyl tributyl citrate, isopropyl alcohol, stearalkonium bentonite, n-butyl alcohol, acrylates copolymer, styrene/acrylates copolymer, benzophenone-1, silica, trimethylpentanedyl dibenzoate, polyvinyl butyral, alumina, [+/- ci's]*

# MAKE-UP

## MAXLOOK NAIL POLISH: MAGNETICS

Bottle 12ml.  
Display 25pcs. (combined colors)

- ▶ Magnetic nail polish.
- ▶ Long lasting nail polish.
- ▶ Intense color, smooth finish.
- ▶ The formula is ultra flexible and long wearing with superior shock absorption and chip resistance.
- ▶ Quick-dry

### FORMULA DOES NOT CONTAIN:

formaldehyde, toluene, dibutyl phthalate, formaldehyde resin, camphor, ethyl tosylamide, xylene, parabens or acetone

To enhance the nail art effect, apply first a base of polish (preferably dark coloured) on the nails and let dry. Shake the bottle of Magnetic Nail Polish and apply a thin layer of colour on the nail.

Bring the magnet close to the polish while still fresh, as close as possible to the nail but without touching it, positioning it for the desired effect. Wait at least 7 seconds before removing the magnet.

Repeat steps 1 and 2 for all of your nails.

RESULTS (according to magnet's positioning).

**TIP 1:** to make a special "mesh" effect, apply the stripe magnet in a horizontal direction for 4 seconds, lift it up and put it close again for another 4 seconds in a vertical direction.

**TIP 2:** If the magnet should come into contact with the polish, clean it with a pad soaked in nail polish remover.

Magnet for Magnetic Nail Polish. A special rectangular-shaped magnet to create a hypnotic nail look.

As the magnet is held over the magnetic nail polish, it displaces the metal particles contained in the formula, creating elegant lines that you can adjust simply by moving the magnet.

*Formula: butyl acetate, ethyl acetate, nitrocellulose, tosylamide/epoxy resin, isopropyl alcohol, acetyl tributyl citrate, iron powder, stearalkonium bentonite, n-butyl alcohol, styrene/acrylates copolymer, diacetone alcohol, paraffinum liquidum, benzophenone-1, phosphoric acid, [+/- ci's]*

## NAILINE KHOL EYELINER

*Eyeliner with blender and sharpener  
Display 24pcs. (+12 testers)  
Display (testers: make-up)*

- ▶ For a perfect eye contour definition. Its concentration of oils and pigments provides soft application and intense lasting results.
- ▶ Thanks to its ophthalmologically tested formula the Khol eyeliner can be used in both the inner and outer line of the eye.
- ▶ Intense color, precise finish, soft and creamy texture.

This soft pencil defines and shades the eye with rich blendable color so you can use it as an eyeliner or eyeshadow.

The easy glide formula is perfect for creating a dramatic smoky eye.

This dual-ended pencil includes a sponge tip on one end for blending and comes with a free sharpener for convenient sharpening.

### INSTRUCTIONS

To create the perfectly lined lid, start with a sharp lead. Begin at inner corner of eye using the “dash to dash” method of application. Draw a series of small dashes that connect at each end. When you have a complete line, go over the line again to intensify the liner shade.

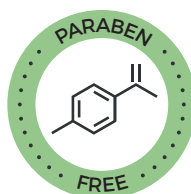

*Formula: Hydrogenated Coco-Glycerides, Olus Oil, Paraffin, Hydrogenated Castor Oil, Copernicia Cerifera Cera, Candelilla Cera, Caprylylglycol, Ethylhexylglycerin, Tocopherol, Lecithin, Ascorbyl Palmitate, Glyceryl Stearate, Glyceryl Oleate, Citric Acid, [+/- CI's]*

- ▶ Vibrant and intense shade
- ▶ Matt finish
- ▶ Good lasting, gliding and comfortable formula
- ▶ Deep intense black colour

Nailine Liquid Eyeliner perfectly defines your eyes. Instantly intensify your look with a dramatic line that lasts all day.

Colour stays smooth and flexible with an excellent adherence.

This formula has been developed with a plant-derived pigment combined with special film forming agents that provide an easy buildability and an intense matt finish.

The formula is enriched with special film forming agents that easily glides on the eyelid, providing an ultraprecise line that dries fast enough to avoid smudges.

This liquid eyeliner features a precision tip brush to deliver intense black colour with long lasting wear effect.

It just releases a super intense and bold film for a deep and captivating look.

Redefine your eyes obtaining a sensual and sculpted look!

### INSTRUCTIONS

1. Start by shaking up your eyeliner tube well, so the formula is nice and smooth. The most important thing for perfect eyeliner application is to hold the brush flat. If you go in with the brush straight, it tends to get messy.
2. Get as close to the lash line as possible and start in the middle while you drag to the outer corners. Use the leftover product to line the inner corners.
3. Follow your lower lash line, going upwards to create a wing. This step helps you make sure that your liner is equal.

*Formula: Aqua, CI 77499, Propanediol, Acrylates Copolymer, Glycerin, Polyglyceryl-6 Distearate, Cellulose, Phenoxyethanol, Galactarabinan, Xanthan Gum, Glyceryl Stearate, Cetearyl Alcohol, Potassium Palmitoyl Hydrolyzed Wheat Protein, Ethylhexylglycerin*

## NAILINE LONG LASTING FLUID MAKE-UP

Bottle 30ml.

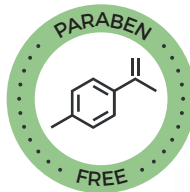

Display (testers: make-up)

- ▶ Covers and protects.
- ▶ Brightening.
- ▶ Moisturizes.
- ▶ SPF 15.
- ▶ Camouflages skin imperfections.

long lasting

up to  
16 hours

Nailine's Fluid Makeup is presented as a very light liquid foundation, with emollient properties and with a long lasting formula (up to 16 hours - tested) combined with the immediate moisturizing effect that lasts up to 24 hours of the Imperata Cylindrica Root Extract, of vegetable origin.

With an SPF 15 sunscreen to protect your skin against UV rays.

### INSTRUCTIONS

On cleansed skin, apply a moisturizer and allow it to penetrate before applying Nailine's Fluid makeup following these three steps:

1. Apply a small amount of makeup on the forehead, extending from the center of the forehead to the hairline.
2. Repeat the process on cheeks, nose and chin.
3. To achieve a perfect finish without tone or texture cuts, blend the sides towards the jaw and neck.

If you need to cover dark circles, spots, bumps or other imperfections, apply a moisturizer, then use a concealer or a highlighter and afterwards apply the fluid makeup.

**Formula:** aqua (water), cyclopentasiloxane, talc, cetyl peg/ppg-10/1 dimethicone, titanium dioxide (nano), propylene glycol, hdi/trime-thylol hexyllactone crosspolymer, acrylates/dimethicone copolymer, sodium chloride, phenoxyethanol, hydrogen dimethicone, magne-sium sulfate, sodium dehydroacetate, parfum (fragrance), disteardimonium hectorite, aluminum hydroxide, benzoic acid, trimethoxycy-prylsilane, tetrasodium edta, tocopheryl acetate, dehydroacetic acid, potassium sorbate, propylene carbonate, silica, ethylhexylglyce-rin, imperata cylindrica root extract, glycerin, peg-8, carbomer, sodium citrate, citric acid, biotin, [+/- ci 77891 (titanium dioxide), ci 77492 (iron oxides), ci 77491 (iron oxides), ci 77499 (iron oxides)]

## NAILINE LIP GLOSS

5ml.

Display (9 testers)

- ▶ Intense colors.
- ▶ Luminance.
- ▶ Volume effect.
- ▶ Wet lips effect.
- ▶ Soft and creamy texture.

The lips are one of the most delicate areas of the face. Their skin is very sensitive and extremely thin, with virtually no protective keratin and a weak hydrolipidic mantle due to the lack of sebaceous glands (capable of secreting a protective layer effectively). Thus, more vulnerable to the effects of cold, wind and water, leading to frequent problems of dryness, irritation and cracking.

Nailine's Lip Makeup introduces its lip gloss with a soft creamy texture, long lasting, enriched with Aloe Vera (moisturizes and protects), Rosa Moschata (nourishes and regenerates) and Vitamin E (anti-aging).

Aloe Vera leaves contain a plethora of antioxidants including, beta carotene, vitamin C and E that can help improve the skin's natural firmness and keep the skin hydrated.

Anti-aging benefit due to the antioxidants and the rose hip oil's ability to penetrate into deeper layers of skin. The vitamin C antioxidants stimulate collagen production, according to the Cleveland Clinic. It also helps reduce fine lines and wrinkles. The oil can penetrate due to the vitamin A, which has small enough molecules to go deeper into the skin. Vitamin A improves the skin's moisture levels and reduces wrinkles and fine lines. The antioxidants, which combat free radicals that cause damage, and vitamin A, combined with the oil's essential fatty acids, help improve skin tone, texture and pigmentation. Sun exposure plays a role in decreased collagen, which vitamin C can help counteract. The oil is deeply moisturizing and aids in removing redness and irritation.

Vitamin E is an antioxidant that protects and repairs your skin. Antioxidants are agents that neutralize the oxidant effect of free radicals, which are molecules that damage collagen and cause skin dryness, fine lines and wrinkles.

### INSTRUCTIONS

Always apply some lip balm on your lips at least one hour before using a lip gloss. This will help in keeping your lips well moisturized and hydrated for a long time, also the lip gloss will remain for a longer period.

Apply the first coat of lip gloss to both lips and for the second coat apply it to the center of your lower lip only. This will give an attractive look to your lips.

**Formula:** Polybutene, Paraffinum Liquidum, Caprylic/Capric Triglyceride, Synthetic Fluorphlogopite, Distearidimonium Hectorite, Propylene Carbonate, Silica, Hydroxystearic Acid, Aloe Barbadensis Leaf Extract, Rosa Moschata Seed Oil, Tocopheryl Acetate, Benzyl Alcohol, Parfum, BHT, Tin Oxide, Sodium Saccharin, Limonene, Citral, [+/- CI s]

## NAILINE LIPSTICK

Stick 5g.  
Display 24pcs. (+12 testers)  
Display (testers: make-up)

- ▶ Intense colors.
- ▶ Luminance.
- ▶ Volume effect.
- ▶ Wet lips effect.
- ▶ Soft and creamy texture.

The lips are one of the most delicate areas of the face. Their skin is very sensitive and extremely thin, with virtually no protective keratin and a weak hydrolipidic mantle due to the lack of sebaceous glands (capable of secreting a protective layer effectively). Thus, more vulnerable to the effects of cold, wind and water, leading to frequent problems of dryness, irritation and cracking.

To keep lips soft and hydrated it's necessary to continuously protect and hydrate them and keep the natural lubricants. Do not expose to the sun, wind, water and cold weather without the proper protection.

Nailine's Lip Makeup introduces its lipsticks with creamy and smooth texture and long lasting effect. Its formula has been enriched with Aloe Vera (moisturizer and protector), Vit. E (anti-aging) and Vit. F (emollient).

### INSTRUCTIONS

Begin by dabbing on a very small amount of lip balm to give your lips a little moisture. Apply lipstick from the tube. Coat the lips evenly. Pay special attention to staying within the lips' edges. Blot to remove any excess color and to even out the texture.

**Formula:** hydrogenated polyisobutene, triisononanol, cera microcristalina, c12-c13 alkyl lactate, triethylhexanol, glyceryl dilaurate, diethylhexyl succinate, neopentyl glycol dicaprylate/dicaprate, octyldodecyl alcinoleate, polyethylene, phenyl trimethicone, caprylic/capric triglyceride, candelilla cera, isodecyl isopentanoate, ethylhexyl methoxycinnamate, synthetic wax, paraffin, silica, tocopheryl acetate, glyceryl linoleate, glyceryl linolenate, glyceryl arachidonate, aloe barbadensis, parafinum liquidum, parfum, bht, mica, [+/- ci's].

## NAILINE MASCARA: VOLUME

Bottle 10,8ml

-  Panoramic lashes
-  Extra-volume
-  Hipnotic look

High-impact mascara that provides multidimensional dramatic volume and length for a scandalous and seductive look. One formula, incredible performances!

### ACTIVE INGREDIENTS

**Rice bran:** renowned for its antioxidant and nourishing properties, it is able to improve and maintain lashes well-being and health.

**Vitaminated peptide:** application after application, day by day, it promotes lash growth and strength, reducing risk of loss and improving the length.

**Carob tree seeds extract:** conditioner and restorative natural active that protects and strengthens lashes. It improves structure and repairs damages caused by mechanical, thermal and chemical processes.

### RESULTS

- Extra volume and definite curl effect
- Lash thickness enhancer
- Dramatic and sensuous look
- Lash conditioner

*Formula: aqua, ci 77499, copernicia cerifera cera, cyclopentasiloxane, oryza sativa cera, hydrogenated olive oil stearyl esters, alcohol denat., palmitic acid, stearic acid, triethanolamine, acacia senegal gum, candelilla cera, propylene glycol, phenoxyethanol, glycerin, vp/va copolymer, aminomethyl propanediol, panthenol, polyvinyl alcohol, chlorphenesin, ascorbyl palmitate, ethylhexylglycerin, hydrolyzed ceratonia siliqua seed extract, zea mays starch, potassium sorbate, sodium benzoate, polyquaternium-7, biotinoyl tripeptide-1, guar hydroxypropyltrimonium chloride.*

## NAILINE MICELLAR SOLUTION

Bottle 400ml  
Display 6pcs.

- ▶ Micelles "micro-encapsulate" dirt on skin's surface and lift it up without rubbing, thereby maintaining skin's physiological balance.
- ▶ A refreshing cleansing water to clean the face, remove eye/lip make-up and soothe the skin in one simple step. No rinsing required.
- ▶ No artificial colourings.

Formula enriched with:

**Aloe Vera:** moisturizes the skin without leaving a greasy feel, so it's perfect for anyone with an oily skin complexion.

**Hammamelis:** anti-inflammatory, anti-microbial and antioxidant properties, these last ones due to the high amount of tannins contained in this herb

**Sodium hyaluronate:** a natural component of the skin that plays a vital role in maintaining the correct water balance of the stratum corneum, and is necessary to maintain the integrity of the barrier function of the skin.

Over time, unfavorable environmental factors and aging decrease the skin's natural ability to attract and retain moisture. Natural levels of hyaluronic acid decline, leaving the skin dry and vulnerable.

This natural film former offers the dual benefits of drawing in moisture and binding it to the skin to restore its moisture holding ability and youthful appearance.

*Formula: Aqua, Poloxamer 184, Glycerin, Decyl glucoside, Aloe barbadensis leaf juice, Disodium cocoamphodiacetate, Hamamelis virginiana leaf extract, Sodium hyaluronate, Sodium chloride, Tetrasodium EDTA, Citric acid, Sodium hydroxide, Phenoxyethanol, Methylisothiazolinone, Potassium Sorbate, Sodium Benzoate*

# MANICURE / PEDICURE

## PUMICE STONE (SILIGLASS)

*Classic  
Double Action*

Ecologic

Non irritating

Bacteriostatic

Lack of  
eco-toxicity

The SILIGLASS cellular glass is obtained from the fusion of glass powder, in which, through a thermic process at high temperatures, cells isolated from each other are created, preventing the absorption of liquids and the proliferation of bacteria, fungi and micro-organisms that survive in them.

### COMPARATIVE TABLE (resistance against the diffusion of water vapour)

AIR	1,0
NATURAL PUMICE STONE	1,3
EXPANDED PLASTIC	30,0
CELLULAR CONCRETE	40,0
SILIGLASS CELLULAR GLASS	85.000,0

OPEN PORE:  
removes callous and hard skin

CLOSED PORE:  
softens, for delicate areas

Thanks to a exclusive manufacturing process, a totally inert material is obtained, with a chemical composition similar to the natural pumice stone and a uniform abrasiveness which guarantees total safety of use and maximum efficiency in the treatment of hard skin.

The SILIGLASS cellular glass pumice stones have been classified as dermatologically safe, according to tests carried out in laboratories approved by the MINISTRY OF HEALTH AND CONSUMER AFFAIRS.

The SILIGLASS CLASSIC cellular glass pumice stones have a cell structure of open pores in order to remove rapidly and with complete safety the hard skin and callouses on feet and hands, preventing the proliferation of dead cells and returning the skin to its natural aspect and softness.

The SILIGLASS DOUBLE ACTION cellular glass pumice stones have a mixed cellular structure of open and closed pores, which allows rapid and complete safe removal of hard skin and callouses on feet and hands using the coloured side, and smoothens or treats delicate areas (ankles, elbows, knees, etc) with the white side, preventing the proliferation of dead cells and returning the skin to its natural aspect and softness.

They are used damp and with soap, rubbing lightly on the affected area of skin. After use, it is recommended to rinse the product to remove residue and to leave it to dry naturally.

### INSTRUCTIONS

Should not be worn over 12 consecutive hours. Do not apply creams or liniments on the area covered by the garment. Do not over-tighten. Wash regularly in warm water (40° C - 104° F) with a neutral detergent. Rinse thoroughly. Do not dry to sunlight. Prolonged exposures to sunlight may damage the neoprene.

# ORTHOPEDICS

## NAILINE SPORT: REUSABLE HOT/COLD PACK

*Hot/Cold Pack  
Display 6pcs.*

- ▶ Stiff, tense, and sore muscles can be relaxed and relieved with a little heat, and joints affected by arthritis pain are no different. Not only does heat relax muscles, it also stimulates blood flow and improves circulation, helps increase range of motion, and reduces stiffness in painful joints.
- ▶ Cold therapy can reduce inflammation, a major cause of arthritis joint pain and stiffness. Placing a cold pack on a swollen joint can also help bring it back down to size, which will also lessen joint pain.

### COLD THERAPY

**FREEZER:** Put the gelatine bag in the freezer for at least 2 h. Take it out, wrap it up in a dry cloth and apply where required.

### HOT THERAPY

**HOT WATER** - Immerse the gelatine bag in the boiling water for 5 minutes max. Take it out, wipe it, wrap it up in a dry cloth and apply where required.

**MICROWAVE OVEN** - Put the gelatine bag in the microwave oven for 1 minute max at 650W. Take it out, wrap it up in a dry cloth and apply where required.

### WARNING

Do not swallow the contents, do not break the bag. Keep out of children's reach. Wrap the gelatine bag in a dry cloth to avoid burns. Consult with a physician before using on babies, children, aged people and people affected by diabetes, cardiovascular and circulation disorders or skin insensibility (syndrome of Raynaud). If you have doubts about the treatment or if the symptomatology persists, consult your physician. Do not apply on injured skin. For external use only.

### INDICATIONS

**Cold Use Indications:** Haematomas, sprains, injuries, hyperthermia and whenever cold application is required.  
**Hot Use Indications:** Lumbago, stiff-neck, rheumatism, hypothermia and whenever hot application is required.

# ORTHOPEDICS

## MAXLOOK CERVICAL HEATING PAD

Heating Pad

- ▶ Helps ease the localized pain and relaxes the muscles around inflamed joints.
- ▶ With a 3-position lighted switch to regulate the temperature.
- ▶ Safety thermostat.
- ▶ Washable cover with soft microfiber fabric (40x32cm).
- ▶ Connecting cable of 2.5m.

### NOTICE:

This heating pad is fitted with a special safety device which automatically regulates the temperature, by turning the power on and off at regular intervals. The temperature of the heating pad is the maximum allowed by IEC standards to guarantee user safety. The product provides the right amount of warmth and not damaging heat.

### HOW TO USE:

The MAXLOOK heating pad is equipped with a control unit with 4 positions:

0 off; 1 minimum temperature, 2 medium temperature, 3 maximum temperature

Before turning the heating pad on, check that the control unit is on the 0 position, then put the plug in the socket. For rapid heating, select level 3; after a few minutes the heating pad will already be pleasantly warm. Place it on the part of the body you wish to heat and select the desired temperature.

Do not use the appliance to heat animals.

For best heating results, keep the heating pad covered so that the heat is not lost when the power is turned off.

### WARNING

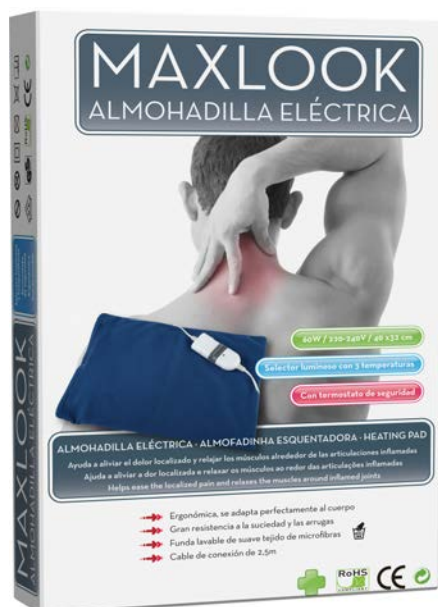

Never touch the appliance with hands or feet that are wet or damp. Never pull on the power cord, or the appliance itself, to remove the plug from the socket. Do not leave the appliance exposed to the elements (rain, sun, etc.). Never immerse the appliance in water. Prolonged use at a high temperature may cause burns. Never fall asleep with the heating pad in operation. Do not use the appliance for the sick, infants or persons insensitive to heat.

### INDICATIONS

Lumbago, stiff-neck, rheumatism, hypothermia and whenever hot application is required.

# DIAGNOSTICS

## PREDIGEST HCG MIDSTREAM PREGNANCY TEST

- ▶ For self-testing
- ▶ Over 99% Accurate.
- ▶ Easy to use.

1 Test    25mIU/ml     0123

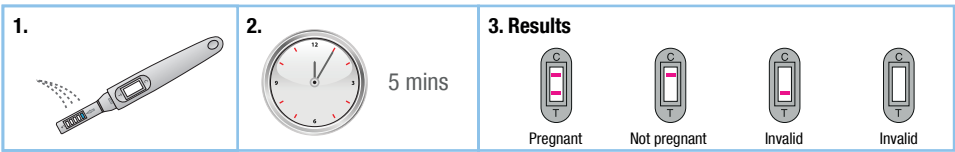

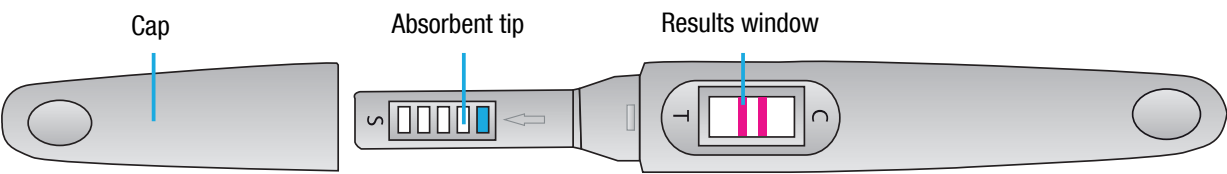

Clear and simple result layout: 2 lines if you're pregnant, 1 line if you're not pregnant

### INTENDED USE

One Step HCG Urine Pregnancy Test is a self-performing immunoassay designed for the qualitative determination of human chorionic gonadotropin (HCG) in urine for early detection of pregnancy by visual. One Step HCG Urine Pregnancy Test is designed for both professional and lay users

### SUMMARY AND EXPLANATION

Human Chorionic gonadotropin (HCG) is a glycoprotein hormone secreted by the developing placenta shortly after fertilization. During normal pregnancy, HCG can be detected in urine as early as 7 days following conception, doubling every 1.3 to 2 days. At the time of the last missed menstrual period, urine HCG levels are about 100mIU/ml with peak levels of 100,000 to 200,000mIU/ml seen at the end of the first trimester. The presence of HCG soon after conception and its subsequent increase in concentration during early gestational growth make it an ideal marker for the early detection of pregnancy.
