Ensuring excellence in every bite.
- ✓ **Sustainability Champions**  
Cultivating a greener tomorrow.
- ✓ **Diverse Product Providers**  
Harvesting variety, delivering freshness.
- ✓ **Continuously Improving:**  
Committed to excellence through ongoing training and development

District Saramacca is one of Suriname's ten districts, situated on the northwest coast of the country. Renowned for its fertile soil and favorable climate, it is a significant agricultural hub. The district's economy largely revolves around the agricultural sector, hosting various farming activities.

## GLOBALG.A.P.

The Global Partnership for Safe and Sustainable Agriculture

Our cooperative offers Global GAP training to enhance the professionalism of our farmers. These sessions impart essential practices in agriculture, food safety, and sustainability, ensuring compliance with international standards. With Global GAP certification, our farmers can access international markets and capitalize on new business opportunities.

SARAMACCA FRUIT & VEGETABLES FARMERS

# WELCOME TO SARAMACCA FRUIT & VEGETABLES FARMERS

A dynamic **Surinamese cooperative of farmers**, primarily from the Saramacca district, established on February 9, 2021. Our aim is to promote the flourishing and advancement of fruit and vegetable cultivation in our district using our own resources and expertise. By collaborating and pooling resources, we can form a strong and influential voice for the interests of the fruit and vegetable cultivation sector in Suriname.

**Mission:** Strengthening the agricultural sector by providing farmers with certifications and high-quality training, enabling them to play a crucial role in ensuring a food-safe future.

**Vision:** Transforming Suriname into a model of agricultural excellence, where every farmer is committed to preserving natural resources and community well-being; through collaboration, innovation, and continuous improvement, we strive for prosperity and sustainable development for all farmers.
