What Is Go-EMP Project Management Software?

Go-EMP's Project module gives teams one dashboard to plan work, track budgets, approve timesheets, and bill clients, instead of stitching together separate tools for time tracking, spreadsheets, and invoicing.

BUILT AROUND THREE CONNECTED MODULES

Project

Timesheets, budgets, milestones, and client invoicing.

People

Attendance, leave, payroll, and employee records.

Performance

360-degree reviews and continuous feedback.

Core Project Management Features

Everything needed to plan, execute, and deliver projects in Go-EMP

Budget vs Actual Tracking

Monitor project budgets in real time and compare actual costs with planned spending to catch gaps early.

Real-time variance · Profit & loss overview · Exportable reports

Digital Approval of Hours

Approve employee work hours through secure digital workflows with accurate timesheet reporting.

Timesheet approvals · Contractor tracking · Audit trail

Milestones & Project Health

Track milestones, monitor progress, and identify risks early to keep delivery on schedule.

Deliverable tracking · Risk alerts · Performance metrics

Invoicing

Generate invoices directly from project data and manage billing without leaving the platform.

Multi-currency support · Custom templates · Payment tracking

Designed to Grow With Your Business

Manage clients, services, and resources in one centralized platform

Client Management

Store every client detail in one hub, from first contact to final invoice.

Services Management

Structure service offerings so project managers can filter work by type.

DSR Reports

Employees log daily work, giving leads visibility into attendance and productivity.

Analytics & Dashboards

Surface project data as actionable intelligence, from margins to milestone risk.

Sprints & Backlog

Plan sprints, groom the backlog, and track tasks from to-do to done.

Why Companies Choose Go-Employee

Unlike traditional HRMS tools, Go-Employee is a workforce platform that unifies People, Performance, and Project delivery in one solution.

Self-Configurable HR Platform

Admin-led setup reduces go-live time from weeks to days.

Secure & Compliant by Design

Granular roles, approvals, and audit trails across every module.

Truly Mobile-First Experience

Native iOS and Android apps with high employee adoption.
