

The logo is a yellow oval with a dark green border. Inside the oval, the word "SPIRULINA" is written in a bold, dark green, sans-serif font. A horizontal dark green line separates "SPIRULINA" from the word "FOX" below it. "FOX" is also in a bold, dark green, sans-serif font. The background of the entire image is white, with a decorative green abstract shape on the right side.

# ABOUT US

Oil Fox is an Argentine capital company which has been preparing for years to be the biggest well-known worldwide brand in sustainable processes, using the most modern and advanced technologies, thanks to the hard work of years of experience and patented research.

We have ascertainable experience at a global level in the construction of Plants for:

- Spirulina obtaining (spirulina among others)
- Manufacture of Biodigestores to obtain Biogas with organic waste, obtaining organic fertilizers of great quality as a by-product

# MISSION

To produce Spirulina globally to fight the malnutrition, and improve the wellness and health of the human beings.

Oil Fox was awarded as goodwill ambassadors .

<http://iimsam.org/en/>

# VISION

Oil Fox search to produce and commercialize Spirulina-Fox, as an alternative to the nutritional supplements for the general public and as a solution to real malnutrition problems of many parts of the world, taking care of the environmental problems too.

# THE SUPER FOOD OF THE FUTURE

The Spirulina is an algae declared by the UNESCO as the food of the millenium because of its multiple vitamins, minerals and proteins, it has many benefits for your health.

Although the microalga is mainly used as a dietary supplement, According to experiments made in the world, a person could survive perfectly for years consuming only spirulina.

It is a natural source of high quality nutrients.  
It has a great protein content thanks to the essentials amino acids and a great concentration of iron.

Equivalences:

100g of Spirulina has 60-70 g of protein,  
3 times more than the pork meat,  
2 times more than the cow meat and the fish and  
1,5 more than soy.

A gram of Spirulina is equal to a a kiloggram of fruits and vegetables.  
In the organisms, it releases stem cells into the bloodstream  
naturally stimulate the immune system.

# SPIRULINA-FOX
