## About Us

Artesanu Alimentos is a Brazilian company with experience in natural, vegan and organic healthy products since 2008. This experience has led us, since 2018, to look for opportunities in foreign markets. Our current range consists of jams, chocolates and whole fruit juices.

We started training and taking part in projects with this aim, i.e. getting to know export processes and prospecting companies interested in building long-term partnerships.

The company is currently taking part in the Agro.BR Project, which is 100% subsidized and generates no costs for the participant. This is an agreement between the CNA (Confederation of Agriculture and Livestock of Brazil) and APEX (Brazilian Trade and Investment Promotion Agency), which aims to qualify (export-oriented) producers in the food and beverage sector, as well as to promote trade. The organization has three offices abroad, in Dubai, China and Singapore.
